VICTORY OF THE DREAM OF 'VIKSIT BHARAT'

As the BJP and NDA register an emphatic victory again under the visionary and charismatic leadership of Prime Minister Shri Narendra Modi in the Lok Sabha elections, 2024, the people of India script a history that is scripted rarely in history. The boundless blessings of the people, their support for the vision of 'Viksit Bharat' and their trust earned through untiring efforts saw the BJP along with NDA constituents winning hearts across the nation. It's not only the victory of the politics of performance, good governance, and development; it's also a mandate for the third time in a row to take India to greater heights as a united and great nation, representing a civilisation whose time has come.

The third consecutive victory is the victory of the national aspirations of making the 21st century India's century. It's the victory to lead on every front globally and to realise the dreams of the sages and seers, which have kept the national spirit alive even through the centuries of subjugations. It's the victory of the poor, oppressed, exploited, deprived and destitute whose voices have started to resonate in the system, rescuing them from the ages of hopelessness and despair. It's the victory of women and youth who are now creating new records and making India proud with their achievements. It's the victory of the farmers who are making their marks felt globally, as it's the victory of the vast rural India that is powering the nation's growth story. It's in fact the victory of the dream of 'Viksit Bharat'.

It's not only the victory of the politics of performance, good governance, and development; it's also a mandate for the third time in a row to take India to greater heights as a united and great nation, representing a civilisation whose time has come

The journey of national reconstruction that started in 2014 with the aim of building a 'New India' that is self-reliant and developed continues vigorously, with the people showering their blessings overwhelmingly on the BJP and NDA. The commitment of the Prime Minister, Shri Narendra Modi, to serve the people by providing corruption-free, development-oriented, people-centric good governance has seen India rescued from Congress-led UPA's era of misrule, rampant corruption, loot of public money, and policy paralysis. India's transformation from 'Fragile Five' to 'Top Five' economies of the world with the mantra of 'perform, reform, and transform' has made the nation the growth engine of the global economy. The last ten years have witnessed the tremendous magnitude of 'speed, scale, and skill' powering the nation as the fastest-growing major economy of the world while ushering in an era of paradigm

shift in every sector. While more than 25 crore people were lifted out of multidimensional poverty, every sector witnessed unprecedented growth with a new energy driving various spheres of national life. It led to a new sense of confidence and trust among the people, resulting in the immense support for the programmes and policies of the Modi government.

While the results of Lok Sabha elections 2024 are celebrated for the victory of the politics of performance, untiring efforts, and unprecedented achievements, it will also go down in history for the defeat of the politics of fake narratives, lies, and deceit. The level to which the INDI-Alliance stooped in peddling falsehood and lies in these elections shows their obsession with unprincipled, opportunistic, and power-centric politics. The people of India have not only rejected the negative and regressive politics of the INDI-Alliance but also defeated their anti-democratic dynastic, divisive casteist, vote bank politics based on appeasement and unprincipled compromises.

The third consecutive victory is historic in many senses as it spans across India, securing people's blessings in new regions while forming NDA governments in all four states that went to the polls. The massive victories in Odisha, Arunachal Pradesh, Andhra Pradesh, and Sikkim show the enormous trust people are reposing in the BJP and NDA. The depth of the victory may be understood from the deep trust people have shown in the strong and dynamic leadership of Prime Minister Shri Narendra Modi, who has committed to making India a developed nation. As the people deliver their emphatic mandate, the journey of 'Viksit Bharat' gains even greater momentum in the coming days. ■

“Together, we will achieve the target of ‘Nation First’ with the intention of Viksit Bharat 2047”

The Prime Minister, Shri Narendra Modi has taken charge of the Prime Minister's Office on June 10, 2024. Addressing the officers and staff of the Prime Minister's Office, Shri Modi asserted that it has been an endeavour to make the PMO an institution of service and the People's PMO from the very beginning. “We have tried to develop the PMO as a catalytic agent which becomes a source of new energy and inspiration”, the Prime Minister said.

Shri Modi said that the Government means new energy of strength, dedication and resolve and expressed confidence that the PMO is primed to serve the people with dedication. He highlighted that it is not Modi alone who runs the government but thousands of minds that come together and shoulder the responsibilities, and as a result, it is the citizens who become witnesses to the magnificence of its abilities.

Shri Modi underlined that the people who belong to his team have no time constraints, limits to thinking or any set benchmarks for effort. “Entire nation has faith in this team”, the Prime Minister said.

The Prime Minister took the opportunity to thank those who have been a part of his team and also exhorted those who wish to join and become a part of the journey of Viksit Bharat for the next 5 years and dedicate themselves to nation-building. “Together, we will achieve the target of ‘Nation First’ with one intention of Viksit Bharat 2047”, the Prime Minister said. He also reiterated that his every moment

belongs to the nation.

The Prime Minister explained that the combination of desire and stability makes for determination while success is achieved when determination is complemented by hard work. He further added that if one's wish is stable, it takes the form of a resolution whereas a wish that constantly takes new forms is merely a wave.

The Prime Minister expressed the desire to take the nation to new heights and exhorted his team to breach the global benchmark while outperforming the work done for the past 10 years in the future. “We must take the nation to the heights no other nation has ever achieved”, Shri Modi exclaimed.

PM Shri Modi highlighted that the prerequisites of success are clarity of thought, faith in conviction and character to act. “If we have these three things, then I don't believe failure will be anywhere near”, he added.

The Prime Minister credited the employees of the Government of India who dedicated themselves to a vision and said that they deserve a huge share in the government's achievements. “These elections put a stamp of approval on the efforts of government employees”, Shri Modi said. He encouraged the team to develop new ideas and boost the scale of the work being done. The Prime Minister concluded the address by throwing light on the secret of his energy and said that a successful person is one that keeps the student within him alive. ■

NDA PARLIAMENTARY PARTY MEETING

NDA PARLIAMENTARY PARTY UNANIMOUSLY ELECTS NARENDRA MODI AS ITS LEADER

The NDA Parliamentary Party has unanimously elected Prime Minister Shri Narendra Modi as its leader. During the NDA Parliamentary Party meeting in the Samvidhan Sadan in New Delhi on 07 June 2024, senior BJP Leader and Union Minister Shri Rajnath Singh moved a proposal to elect Shri Modi as NDA leader and it was supported by the leaders of all NDA constituents. Shri Narendra Modi has also been elected as the leader of BJP in Lok Sabha, and BJP Parliamentary Party.

Proposing the name of Shri Narendra Modi, Shri Rajnath Singh said he is the most suitable person for Prime Minister's post. He said this alliance is not a compulsion but it is our commitment.

Supporting the proposal, Union Home & Cooperation Minister Shri Amit Shah said, this is not only the wish of leaders sitting in the NDA Parliamentary Party meeting but of 140 crore people of this country. Senior BJP leader and Union Minister Shri Nitin Gadkari said Prime Minister Shri Narendra Modi has worked with full dedication to ensure that the country is prosperous and becomes a superpower.

NDA is an alliance committed to work with the spirit of 'Nation First'

Speaking on the occasion of the NDA Parliamentary Meet in the Samvidhan Sadan in New Delhi on 07 June 2024, Prime Minister Shri Narendra Modi said, NDA is not a group of parties that have come together for power but it is an alliance committed to work with the spirit of the 'Nation First'. He said, NDA is the most successful alliance in India's history and our aim will be to reach unanimity in all decisions. He said, today, the people of the country have given NDA an opportunity to serve them by forming the government in 22 states. Following is the full text of his speech:

Bharat Mata ki... Bharat Mata ki... First of all, I express my heartfelt gratitude to all the leaders of the NDA constituent parties, all the newly elected MPs, and our Rajya Sabha MPs present in this hall. It is a matter of great joy for me to have the opportunity to welcome such a large group here today. All those who have emerged victorious deserve congratulations, but I also bow my head in respect to the millions of workers who toiled day and night, braving the scorching heat, for their tireless efforts.

I am deeply thankful to you

Friends, it is my great fortune that you have unanimously chosen me as the leader of the NDA, giving me a new responsibility. For this, I am deeply thankful to you. In my personal life, I feel a sense of responsibility. When I spoke in this hall in 2019 after you elected me as the leader, I emphasised one thing: 'Trust.' Today, as you entrust me with this responsibility once again, it signifies that the bridge of trust between us is very strong. This unbreakable relationship is built on the solid foundation of trust, which is the greatest asset. Therefore, this moment is very emotional for me, and no amount of thanks is enough for you all.

NDA has been allowed to serve in 22 states across the country

Friends, very few people talk about this, perhaps because it doesn't suit them, but look at the strength of India's great democracy: today, the NDA has been allowed to serve in 22 states across the country. Our alliance truly reflects the spirit of India, the soul of India, and what is deeply embedded in

PM Modi Bows Down Before Constitution at NDA Parliamentary Meet in 'Samvidhan Sadan'

Amid a rousing welcome, Prime Minister Shri Narendra Modi bowed and respectfully touched the Constitution of India with his forehead after he entered the 'Samvidhan Sadan' (Central Hall of old Parliament) during the NDA Parliamentary Meet in New Delhi on 07 June 2024.

Wearing a white kurta and churidar with a cream checkered half-jacket, Prime Minister Shri Modi humbly greeted the newly elected MPs with folded hands and met the NDA allies sitting near the podium including JDU's Nitish Kumar, TDP's Chandrababu Naidu, LJP (Ram Vilas) chief Chirag Paswan, among others, who elected PM Shri Modi as Leader of the BJP, Leader of NDA Parliamentary Party and Leader of the Lok Sabha, exuding confidence in his visionary leadership for 'Viksit Bharat.' ■

India's roots. Consider this: in our country, there are 10 states where the tribal population is significantly high and decisive. Out of these 10 states, the NDA is serving in 7 states. Friends, we are dedicated to our Constitution's principle of equal respect for all religions, and in states like Goa and the North East, where a large number of our Christian brothers and sisters reside, we have been given the opportunity to serve as the NDA.

Friends, in the history of Indian politics, no pre-poll alliance has been as successful as the NDA. This victory is significant, and I have often said that while a majority is necessary to run a government, unanimity is crucial to run a country. I assure the citizens of this country from here that while you have given us the majority to run the government, it is our duty to strive for unanimity and leave no stone unturned to take the country forward.

The NDA is nearly three decades old

Friends, the NDA is nearly three decades old. In the 75 years of independence, having an alliance that spans three decades is not a common occurrence. This journey of three decades amidst our diverse democratic and social structure sends a powerful message. Today, I proudly state that there was a time when I was a part of this alliance as a worker, involved in various organisational activities. Now, sitting in this hall and working with you all, I can say with facts and reality that this is the most successful alliance. We can proudly say that out of these 30 years, this alliance has successfully completed three terms of five years each and is now entering its fourth term.

Proud of this legacy of great leaders

Political experts, if they think with an open mind—and the phrase 'open mind' is very significant—will find that the NDA is not just a coalition of parties to gain power or run a government. It is a group committed to the fundamental sentiment of 'Nation First.' Initially, it may have been assembled over a long period of 30 years, but today I can say that it is an organic alliance in India's political system. This value was instilled by leaders like the late Atal Bihari Vajpayee, Shri Prakash Singh Badal, Shri Balasaheb Thackeray, Shri George Fernandes, and Shri Sharad Yadav. These leaders sowed the seed that has now grown into a banyan

tree, nurtured by the trust of the Indian people. We are proud of this legacy of great leaders.

Over the past ten years, we have strived to advance the NDA's legacy and values to progress the country. Political analysts, if they analyse with an open mind, will see a common element among the NDA members: good governance. Whenever they had the opportunity to serve, they provided good governance to the country. Therefore, the term 'NDA' has become synonymous with good governance.

We have exemplified the mantra of collective effort

Friends, In our tenures, whether I was in Gujarat, Babu in Andhra Pradesh, or Nitish Ji in Bihar, the welfare of the poor has always been central to our work. The country has witnessed ten years of NDA's good governance focused on the welfare of the poor. Not only has it seen it, but it has lived it. For the first time, the people have experienced what a government is, why it exists, for whom it exists, and how it should work. Previously, there was always a gap between the people and the governments; we have bridged that

gap. We have exemplified the mantra of collective effort to take the country to new heights.

Friends, With responsibility, I state that in the next ten years under the NDA government, we will emphasise good governance, development, and improving the quality of life for citizens. Personally, I have a significant dream. When I think about the prosperity of democracy, I want minimal government interference in the lives of ordinary citizens, especially the middle and upper-middle classes, as this strengthens democracy. In today's technological era, this is easily achievable. Previously, if one had ten tasks in a day, they would require ten different approvals. We seek change. This is also an essential aspect of good governance. We will write a new chapter on development, good governance, and public participation, and together, we will realise the dream of a developed India.

Why the NDA alliance has been advancing strongly for the past 30 years

Friends, within the NDA, and I say this in detail, any representative from any party in the House is

NARENDRA MODI MEETS LK ADVANI, MURLI MANOHAR JOSHI AND

The leader of the NDA Parliamentary Party Shri Narendra Modi met senior BJP leaders Shri LK Advani and Dr. Murl Manohar Joshi at their residences in New Delhi on 07 June 2024, before staking claim to form the government at the Centre for a third consecutive term.

Shri Modi visited Advaniji to seek his blessings soon after being chosen as the leader of the NDA Parliamentary Party, leader of the BJP Parliamentary Party and leader of the BJP in the Lok Sabha. After meeting Shri Advani, he went to the residence of senior BJP leaders and former National President of the Bharatiya Janata Party Dr. Murl Manohar Joshi. There after Shri Modi visited former president Shri Ram Nath Kovind at his residence in New Delhi.

Later, Shri Narendra Modi went to the Rashtrapati Bhawan and called on President Smt. Droupadi Murmu for staking claim to form the government. ■

equal to me. When I talk about everyone's effort, it applies to both the Lok Sabha and the Rajya Sabha; for us, everyone is equal. This spirit is why the NDA alliance has been advancing strongly for the past 30 years. There is no 'us versus them.' We have never hesitated to embrace everyone, which is why we have been able to win the trust of the people.

Friends, the teamwork we demonstrated in 2024, working together at the grassroots level, wasn't just a Photo-Op of leaders waving hands and going their separate ways. Everyone worked together at the grassroots level, which gave us the strength of an organic alliance. We supported each other, with everyone thinking, "Where there is a need, I will come and work hard to fill it." This 'where there is a need, we are there' attitude was embodied by every worker, and that's why we achieved victory.

Friends, I can say from our 10 years of experience that the aspirations of every region and every citizen of India, both regional and national aspirations, should be so closely linked that not even air can pass between them. This kind of unity is essential for the country to move forward.

In South India, the NDA has laid a strong foundation

Friends, in this election, I want to highlight a few things I have observed. In South India, the NDA has laid a strong foundation for a new kind of politics. Look at Karnataka and Telangana. They recently formed their governments, but in a moment, people's trust in them shattered, and they embraced the NDA. Both in Karnataka and Telangana, the people came out of their disillusionment and supported the NDA.

Friends, in Tamil Nadu, I want to congratulate the team there. Our NDA group is quite large, and many knew we might not win a single seat, but they stayed united in the fight. Many NDA allies in Tamil Nadu didn't have candidates, but they worked tirelessly to keep the flag high. Although we didn't win a seat in Tamil Nadu, the rapid increase in the NDA's vote share signals what the future holds.

First time, we have a representative from Kerala

Friends, in Puducherry, Kerala... In Kerala, many of our workers have sacrificed their lives. Whether it's

RAMNATH KOVIND BEFORE STAKING CLAIM AS PM FOR THIRD TIME

the UDF or the LDF, nowhere in India's political life has an ideology faced so much oppression as it has in Kerala, even more than in Jammu and Kashmir. Despite not seeing any immediate victory, they never stepped back from their immense efforts, spanning generations. Today, for the first time, we have a representative from Kerala in Parliament.

Andhra has given us a massive mandate

Friends, in Arunachal, we have continuously formed the government with overwhelming support. In Sikkim, our NDA government almost achieved a clean sweep. In Arunachal, we achieved a clean sweep. In Andhra Pradesh, I was just asking Babu, and he said it was the highest historical victory. What you see here, Pawan, is not just a breeze; it's a storm. Andhra has given us such a massive mandate, reflecting the common man's desire for development in India.

Odisha will be one of the growth engines

When I think of Lord Jagannath, I always believe He is the deity of the poor. The revolutionary result is something I see as a revolution. I can say that our

dream of a developed India, looking 25 years ahead (I mentioned 10 years earlier, but now I say 25 years), with the blessings of Lord Jagannath, Odisha will be one of the growth engines of India's development journey in the next 25 years.

The EVM shut them up

Friends, we were going through the results on June 4th. I was busy with my work, and later, calls started coming in. I asked someone about the situation, saying, "Alright, I understand the numbers, but tell me, is the EVM alive or dead?" Because these people had made up their minds to undermine the faith in India's democracy and its processes, constantly criticised the EVMs. I thought maybe this time they would take out a funeral procession for the EVMs, but by the evening of June 4th, they were silenced. The EVM shut them up. This is the strength of India's democracy, the strength of India's impartiality, the strength of India's electoral system, and the strength of the Election Commission. I believe and hope that for the next five years, we won't hear much about EVMs. However, when we go to the polls again in 2029, they might start their drama

about the EVMs once more. Their chances of reform are very slim. During the election, I saw for the first time that almost every third day, the Supreme Court was approached to obstruct the work of the Election Commission. Various applications were filed by the same group, who have a deep distrust of democracy, making continuous efforts to create obstacles through the Supreme Court. A significant portion of the Election Commission's strength was tied up in the courts during peak election hours, revealing their deep frustration. Their entire attack was aimed at the institution so that no matter the election results, they could discredit India globally. This was part of their conspiracy, friends, and the country will never forgive them.

Friends, when the INDI alliance opposes the EVMs, I don't see it as just an election issue. I believe these people have a mindset rooted in the previous century. They neither understand nor accept the importance of technology. This opposition was evident not only

with EVMs but also with UPI. When we said that the people of India will adopt digital transactions and today, India has made a name for itself in the fintech world, they didn't accept it. Aadhaar has become the identity of the country. Many countries ask me how they can adopt the Aadhaar system. But to obstruct Aadhaar, they repeatedly approached the Supreme Court, causing difficulties. Essentially, they are against progress, modernity, and technology. We've seen this with the INDI alliance.

Diversity, vastness, and depth of India's democracy

Friends, it's concerning that efforts are being made to undermine the strength of India's democracy on the global stage. While I'm proclaiming that we are the mother of democracy, they are going around telling the world that there's no democracy in our country, questioning how a tea seller like Modi reached this position, suggesting there must have been some foul

Team NDA met the Honorable President of India, Smt. Droupadi Murmu Ji and handed over the letters of support from the BJP and all NDA constituent parties, stating that PM Shri @narendramodi Ji had been elected as our leader on 7 June, 2024

Exercising powers vested in her under Article 75 (1) of the Constitution of India, the President of India, Smt Droupadi Murmu, appointed Shri Narendra Modi to the office of Prime Minister of India at Rashtrapati Bhawan, in New Delhi on June 07, 2024.

play. Their mindset is to create distrust among Indian citizens about the electoral process. I believe that the world will now be more interested in understanding the diversity, vastness, and depth of India's democracy. This election result is a testament to that.

Friends, between the completion of voting on the 1st and the counting on the 4th, there were planned statements inciting violence in the country. Some might not take this seriously, but it is very serious. First, they disrespect the electoral system, and then, before the results, they create an atmosphere of chaos. Their words implied setting the country on fire. They continuously tried to mislead the country and divide the people. Elections are a festival of democracy meant to unite as many people as possible, not to

divide them. But every effort was made to do just that.

Friends, I believe that the results of the 2024 Lok Sabha elections, by any parameter, will be seen as a great victory for the NDA. For two days, it seemed like we had lost, but this was to boost the morale of their workers with imaginary deceptions. Historically, this is the strongest coalition government, but efforts were made not to accept this victory and to overshadow it with defeat. But such things die a premature death, and they did. The country knows that we have neither lost nor have we lost. Our behaviour after the 4th shows that we know how to handle victory. Our culture does not promote arrogance in victory or mockery of the defeated. We digest victory and do not nurture the vice of mocking the defeated. This is our ethos. Ask any child who was in power before the Lok Sabha elections, and they will say NDA. After the 2024 results, who formed the government? NDA. So, where did we lose? Before, it was the NDA, and it still is. Even after ten years, the Congress couldn't cross the 100-seat mark. If I add up the seats Congress won in the 2014, 2019, and 2024 elections, we won more seats in this election alone. The INDI alliance didn't realise that they were sinking slowly and now are sinking rapidly.

INDI alliance does not understand the common citizens

Friends, the INDI alliance does not understand the common citizen's intellect and might not want to. The common person has a sense of understanding, and those connected to the ground know this well. After the 4th, I hoped they would respect democracy, but their behaviour suggests that we might have to wait longer for them to learn this. They are the ones who disrespect their own party's PM, tear up decisions, and fail to provide a chair for their own foreign guests. We've all seen these scenarios. Despite these situations, we should focus on strengthening democracy and maintaining faith in the people.

Democracy teaches us to respect everyone

Friends, democracy teaches us to respect everyone. I congratulate the MPs from the opposition who won. In the last ten years, I missed the quality of debate and participation in Parliament. I hope the

After appointing Shri Narendra Modi to the office of Prime Minister of India, the President, Smt Droupadi Murmu, in a traditional gesture offering him sweet curd, which is considered auspicious in Indian culture, symbolising good luck and success for new ventures at Rashtrapati Bhawan in New Delhi on June 07, 2024.

new Parliament will address this lack. Even if they sit in opposition, they are not against the nation; they are just in opposition. In the nation, we are all one, with no sides or opposition. We are 140 crore strong, and I hope they will come to Parliament with a spirit of national interest, contributing to enrich the House.

The mandate of 2024 strongly reiterates that in today's environment, the country only trusts the NDA. When there is such unwavering faith, naturally, the expectations of the country will also increase. I consider this to be good and see it as our duty. To fulfil these expectations, and as I have said before, the ten years of work we've done is just a trailer. This was not just an election statement; it was my commitment. We must work faster and more extensively to meet the aspirations of the country without any delay.

The public wants us to deliver more than ever before. They want us to break our previous records. If I put the NDA on one side and the dreams and

aspirations of the people of India on the other, I would say the NDA stands for New India, Developed India, Aspirational India. Fulfilling these dreams and aspirations is our commitment, and we have the roadmap for it.

NDA always provided a corruption-free, reform-oriented, and stable government

Friends, the NDA has always provided a corruption-free, reform-oriented, and stable government whenever given the opportunity. In contrast, the Congress-led UPA, despite changing their name to improve their image, remains synonymous with scandals. Despite changing their name, the country hasn't forgotten their scandals and has rejected them. I can confidently say that the people have placed the members of the INDI Alliance in opposition because their one-point agenda was to oppose one individual.

The NDA went into the election with a vision of a developed India

The NDA went into the election with a vision of a developed India, with positive thinking for the country, understanding the capabilities of the youth, and moving the country forward with new opportunities. On the other hand, those opposing us focused on spreading confusion and lies, misleading the public. If you compare the NDA with them, even during the nomination process, you will see the difference in character. They declared an alliance for the sake of photos but fought against each other in many states. They claimed to have a "conceptual alliance," but it was only for the central level; they said they would handle things separately at the state level.

Now, they have started saying their alliance was only for the Lok Sabha elections and not beyond. This shows their approach was only for the sake of power. They were willing to support each other only if it served their selfish interests. Friends, these people have been spreading big lies. During the election, they distributed slips to mislead the public, promising various benefits. For the last two days, I have seen people queuing up at Congress offices, asking for the promised money, only to be turned away. This is an insult to the poor of our country and the common citizens. The country never forgets such actions, nor does it forgive them.

Friends, We have worked with commitment. In ten years, we have lifted 25 crore poor people out of poverty, provided a secure and robust safety net for the poor, and ignited new aspirations in them. We have given homes to 3 crore poor families. This is not just a statistic; it takes immense effort, and we have successfully achieved this. We have pledged to build 3 crore more homes for those who need them. We have pledged free treatment up to 5 lakh rupees for citizens above 70 years old. Through the Mudra scheme, we will facilitated loans of up to 20 lakhs for our youth to start businesses.

These are not just promises; they are guarantees for our third term, and we are committed to fulfilling them without any shortcomings. Empowering the poor and providing convenience to the middle class is our priority. The middle class is now a significant driver of the country's growth story. We are working on enhancing their quality of life and making necessary

policy changes to increase their savings.

Women's Reservation Bill

Friends, Our commitment to the active participation of women from the panchayat to the parliament is unwavering. We have moved forward with the Women's Reservation Bill, ensuring that in the future, our assemblies will be led by a significant number of women. During the entire election, we were the party that gave tickets to the highest number of women candidates. This commitment extends to the international stage, as seen in the G20 summit, where we emphasised the empowerment and development of women, shifting to a focus on women-led development.

Third-largest economy

Friends, this tenure of the NDA is one of the major decisions and rapid development. We aim to move from being the fifth-largest economy to the third-largest, not just for the sake of ranking but because it enhances our capacity to meet the aspirations of the common man. We want to move quickly and ensure every region develops comprehensively. In the past ten years, we have revolutionised infrastructure development, using technology to speed up processes and create opportunities for employment.

Today, India is emerging as a new manufacturing hub for the world, not just in electronics but also in food processing, space, artificial intelligence, startups, and skill job opportunities. This is my firm belief. Initiatives like the Mudra Yojana, Drone Didi, and Vishwakarma Yojana have given rise to new possibilities.

Great potential for investment

Friends, The more we focus on our culture and heritage, the more it will become a centre of attraction for the world. I believe tourism is an avenue for India that offers an opportunity like never before in the last century and won't come again in the next 25 years. The world is turning towards India, and it is our job to develop the necessary infrastructure, promote tourism around our heritage, and create a win-win situation. I see great potential for investment in this sector, where everyone can earn, from the poorest individuals to large hotel owners. We want

to emphasise tourism because it has tremendous potential. Our improvements in infrastructure, be it airways, railways, or expressways, are enhancing our connectivity, and our digital initiatives are creating a positive foundation that will benefit tourism. The "Vocal for Local" and regional tourism efforts are also gaining momentum.

The world is entering a new era

Friends, the world is entering a new era. During the Industrial Revolution, we were under colonial rule and couldn't benefit as we should have. Now, a new era is beginning—the Green Era. India has great potential to lead in this area. We want to advance rapidly in green hydrogen, green energy, green jobs, and green mobility. We aim to demonstrate India's capability to lead in the Green Era.

On June 5th, World Environment Day, a thought occurred to me on June 4th, the day election results were announced. We started a program called "A Tree in the Name of Mother." Everyone has respect for their mother. I urge every citizen, whenever there is a special day like your mother's birthday or any other auspicious occasion, to plant a tree in your mother's name. If she is alive, take her along; if not, keep her picture and plant the tree. This will honour both your mother and Mother Earth. Let us serve these two mothers.

India's role in the global context is increasing day by day

Friends, the NDA can no longer live in isolation; India's role in the global context is increasing day by day. When the NDA government was formed in 2014, a new curiosity and hope emerged worldwide. Over the past 10 years, India's efforts have established our image as a global partner. The world accepts us as a friend, and with that comes global responsibilities. Our successful foreign policy has yielded positive results. We have handled every crisis with a focus on human values, which has strengthened the perception of India as a global friend. This recognition has increased investment opportunities in India. I urge states to develop progressive policies

because the world is knocking on our doors. States with clear policies and effective handling of foreign investors will benefit the most.

Friends, our Constitution's 75th year should not be merely a celebration of our constitutional institutions but should spread the spirit of the Constitution to every citizen. We aim to strengthen the commitment to constitutional values and duties among the people.

The 350th anniversary of Chhatrapati Shivaji Maharaj's coronation is an inspiration for us, as it embodies the spirit of "Nation First." Remembering Shivaji Maharaj strengthens this sentiment, and as we celebrate this milestone, we must prioritize policies and performance to improve the lives of ordinary citizens without delay.

Friends, we have a roadmap for development, but we must remain cautious of false narratives.

When the NDA government was formed in 2014, a new curiosity and hope emerged worldwide. Over the past 10 years, India's efforts have established our image as a global partner

BJP National President's Address at NDA Parliamentary Party meeting

Under Modi Ji's leadership, India moving forward with the resolve of becoming a developed country: J P Nadda

Bharat Mata ki Jai, Bharat Mata ki ji. Today, in this program, we are honoured by the presence of our esteemed and successful Prime Minister, Shri Narendra Modi Ji, all senior leaders of the NDA, our Chief Ministers, Deputy Chief Ministers, and newly elected MPs. This is a historic moment that we have all been waiting for, and it has finally arrived. We are here to witness and participate in the selection of our respected Prime Minister and leader for the third consecutive time as the head of the NDA coalition.

In this historic hour and within this historic Central Hall of the Constitution House, we are privileged to be eyewitnesses. On behalf of everyone, and through our electronic media reaching millions watching the activities of the parliamentary party, I extend heartfelt congratulations and a warm welcome to our honourable Prime Minister. I also deeply appreciate and welcome all the leaders of the NDA present on the dais and in the audience.

NDA government for the third consecutive time

From the bottom of our hearts, we extend our heartfelt congratulations to our honourable Prime Minister. Through his tireless efforts, constant hard work, every moment, every hour, every day, every year, he has dedicated himself to the service of the nation. It is because of this dedication that India is once again making history by bringing the NDA government to power for the third consecutive time with a majority.

I would also like to mention that while we have achieved a majority in the Lok Sabha for the third consecutive time, we have also established our government in Odisha and achieved success there. I am pleased to inform you that the NDA government has been formed in Andhra Pradesh, and for the third consecutive time in Arunachal Pradesh, and in Sikkim as well. For this, I extend my hearty congratulations.

This journey of NDA's development under the

tireless efforts of our honourable Prime Minister Modi Ji, guided by his policies of "Reform, Perform, Transform," has led the country forward. It has resulted in us witnessing this historic moment today. We remember that ten years ago, India was in a state of apathy. It was said that nothing would change here, and today, after ten years under Modi Ji's leadership, that same India has become an aspiring nation, moving forward with the resolve of becoming a developed country.

“Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas”

We must understand that the country's borders have strengthened, national security has improved, and internationally, India has established itself under the leadership of honourable Prime Minister Modi Ji. The country's infrastructure has advanced, villages have strengthened, the poor have been empowered, women have been uplifted, and the aspirations of

the youth have taken flight, our farmers have been brought into the mainstream, and our Dalits have been given a path to progress with dignity. All this has been possible because of the mantra with which Prime Minister has moved forward: "Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas". It is due to his efforts that we are witnessing this today, and we are about to re-elect our leadership.

I would like to recite a few lines from Ramdhari Singh Dinkar Ji's poem in welcoming our Prime Minister once again:

“ वसुधा का नेता कौन हुआ,
भूखंड विजेता कौन हुआ,
अतुलित यश क्रेता कौन हुआ,
नव धर्म प्रणेता कौन हुआ,
जिसने ना कभी आराम किया,
विघ्नों में भी रहकर नाम किया ”

Rajnath Singh proposes Narendra Modi as NDA Parliamentary Party leader

Narendra Modi is the most suitable person for Prime Minister's post: Rajnath Singh

Senior BJP leader Shri Rajnath Singh proposed Shri Narendra Modi's name as the leader of the NDA Parliamentary Party and the proposal was seconded by senior BJP leaders Shri Amit Shah and Shri Nitin Gadkari as well as top NDA leaders.

At a meeting of the NDA Parliamentary Party at the Central Hall of Old Parliament House (Samvidhan Sadan) in New Delhi Shri Singh also credited Shri Modi for expanding the BJP-led National Democratic Alliance and said this grouping is not a compulsion but a commitment for the BJP. Following is the full text of his speech:

Friends, first of all, I extend my heartfelt congratulations to all the newly elected members of the Lok Sabha and convey my best wishes to everyone on this occasion. Friends, as you all know, we have gathered here to elect the leader of the Bharatiya Janata Party's parliamentary party, the leader of the NDA parliamentary party, and the leader in the Lok Sabha. I believe that Modi Ji's name is the most suitable, appropriate, and best for all these positions.

Friends, I say this because, as his colleague in the cabinet, I have personally witnessed his efficiency, skill, foresight, and authenticity. And not only I but the entire nation has seen this. It is a matter of joy for all of us that the NDA government, under his leadership, has served the country in such a way that it is being praised not only in India but also in other countries around the world. We are fortunate that for the third time, our NDA government is going to be formed. Friends, for the first time since 1962, a politician is going to become the Prime Minister of India for three consecutive terms.

As far as I know, friends, in democratic countries around the world, if anyone is getting this opportunity for the third time, it is our NDA. Friends, we are fortunate to have a welfare-oriented and sensitive Prime Minister like Modi Ji. His leadership skills, efficiency, and vision have led to the growth of our NDA family. We have been recognised as a family that upholds the principles of coalition politics, and this tradition began when the respected Atal Bihari Vajpayee Ji was the

Prime Minister of India.

I want to make it clear that our alliance is not a compulsion for us but a commitment. We have to take India forward as a capable, prosperous, developed, proud, and strong nation. Over the past ten years, under Modi Ji's leadership, there has been a revolutionary change in India's condition, direction, and mindset. Today, the country has reached a stage where not only the nation but the whole world believes that India has the capability to lead and provide new direction to the world while developing itself.

Friends, today, the country is progressing towards strengthening itself not just for decades but for centuries. And I believe that to accelerate this work there is no better name than Modi Ji. Therefore, I propose the name of the honourable Narendra Modi Ji as the leader of the Bharatiya Janata Party's parliamentary party, the leader of the NDA parliamentary party, and the leader of the Lok Sabha. ■

Modi as PM is not only the wish of NDA Parliamentary Party meeting but of 140 crore people of this country: Amit Shah

Friends, I wholeheartedly congratulate everyone who helped us win the Lok Sabha elections again. Just now, the country's Defence Minister proposed Shri Narendra Modi Ji as the leader of the Lok Sabha, the Bharatiya Janata Party Parliamentary Party, and the NDA Parliamentary Party, which I wholeheartedly support.

Friends, this proposal is not just the wish of a few of us sitting here; it is not even the unanimous wish of the NDA constituent parties sitting here. This proposal is the expression of the wishes of 140 crore people in the

country. From Kashmir to Kanyakumari and Kamakhya to Dwarka, from every corner of the country, from every tehsil, from every constituency, in such a vast area, one voice has emerged that it is everyone's wish that Shri Narendra Modi should lead the country for the next 5 years. In the 10 years that Modi Ji worked as Prime Minister, the BJP NDA government under his leadership has brought about revolutionary changes in every field and this mandate of the people of the country acknowledges it and puts a strong stamp on it. And today, in this sacred place where our Constitution was made, in the Constitution House, the decision that we are going to take is historic in the history of independent India that after 60 years, for the third time in a row, a person is going to become the Prime Minister and he is our leader Shri Narendra Modi.

Therefore, on behalf of crores of workers of the Bharatiya Janata Party, on behalf of the people of the country and on behalf of the NDA allies, I wholeheartedly support these three proposals put forward by Shriman Rajnath Singh ji and I hope that you people also support them. ■

Nitin Gadkari seconded the name of Shri Narendra Modi as NDA Parliamentary Party leader PM ensures our country becomes a global superpower: Nitin Gadkari

I extend my heartfelt congratulations to all the newly elected members of the Lok Sabha. I convey my best wishes to them. The honourable Defence Minister, Shri Rajnath Singh Ji, has proposed the name of honourable Narendra Modi Ji as the leader of the Bharatiya Janata

Party parliamentary party, the leader of the NDA, and the leader in the Lok Sabha. I endorse this proposal.

Over the past ten years, we have had the privilege of working under his leadership. He has dedicated himself with commitment and sincerity to ensuring that our country is happy, prosperous, and wealthy and becomes a global superpower with comprehensive progress and development in all sectors of society. I am confident that his work has not only influenced our country but has also impacted the entire world.

The work done in the past ten years is merely a beginning. We firmly believe that in the next five years, we will become a great global power. I extend my best wishes and congratulations to Honourable Modi Ji and endorse the proposal put forth by Honourable Rajnath Singh Ji. Once again, I thank you all. ■

N. CHANDRABABU NAIDU'S ADDRESS

'NARENDRA MODI'S FOCUSED AND DEDICATED APPROACH TRANSFORMED THE NATION INTO A GLOBAL POWERHOUSE'

Honourable Prime Minister of India, Shri Narendra Modi Ji, honourable Union ministers, respected NDA Partners, honourable MPs. First of all, we are congratulating all of you; we have won a wonderful majority. I have seen for the election campaign for three there months honourable PM never took any rest day and night. He campaigns with the same zeal. He started and ended with the same spirit.

In Andhra Pradesh, we had there public meetings, and one big rally which made a huge difference in winning the elections in Andhra Pradesh. The honourable home minister came, and he addressed one meeting, a very powerful meeting which changed the situation in a big way. I'm thanking him. If you want to achieve, if you visualise, it can b e done. Shri Narendra Modi Ji has a vision, and he has a zeal. His execution is perfect, and also he executes all his policies with a true spirit; always having a leader right time is a great asset for the nation.

India has the Right leader at right time

Today, India has the Right leader at right time which is Narendra Modi. This is a very good opportunity for India. If we miss now, we will miss forever. That is where we have wonderful opportunities you are seeing globally. Today, all countries have a 1% or 2%, or 3% growth rate but India has been growing at the highest growth rate for the last 10 years; it will continue for another 10, 20 years, 30 years, or 40 years. India has a first-mover advantage, one of which is Information Technology. We also have a demographic dividend, which means more young people, which has created an excellent advantage for Indians to move abroad. We also had all the resources in ancient times, but we are now moving very aggressively, and the reason is very clear: we have a leader, and that leader is Narendra Modi. I proudly propose the name of Shri Narendra Modi Ji on behalf of the Telugu Desam Party for the post of Prime Minister of this great nation. Through his vision of Sabka Sath, Sabka Vikas and Viksit Bharat and

through the collective efforts of NDA, we can become a zero-poverty nation that is possible only because of Narendra Modi Ji.

This is a historic moment

This is a historic moment for all of you who are here. Telugu Desam Party has had relations with NDA from the beginning. My leader, my martyr founder, great N T Ramarao Garu, you all are aware he always worked for the people and also told very clearly I don't know 'isms'. I know only are 'ISM' that is 'Humanism'. That is NTR, that Vision Narendra Modi Ji is making a reality in India. We are very happy about this momentum. I thank all of you.

This time, we know the election we have won are historic elections, if you see 95% seats we have won in Andhra Pradesh, that is a big victory. I have seen so many elections. It is the first of his kind; that is the confidence people have in NDA and all leaders. My friend Pawan Kalyan ji is here from the Janasena Party, TDP, and also BJP; we worked together without having any reservations. Here, state president Purandeswari is also here. All the leaders worked very well that is the result we got. I'm very happy to share some of my ideas with you; this is the proudest moment in my life. Thank you. ■

NEW SANKALPS FROM THE SADHANA IN KANNIYAKUMARI

The 2024 Lok Sabha elections are the first in the Amrit Kaal. I began my campaign a few months ago from Meerut, the land of the First War of Independence of 1857. Since then, I have traversed across the length and breadth of our great nation. The final rally of these elections took me to Hoshiarpur in Punjab, the land of the great Gurus and a land associated with Sant Ravidas Ji. After that, I came to Kanniyakumari, at the feet of Maa Bharti

NARENDRA MODI

My Fellow Indians,

The biggest festival of democracy, the 2024 Lok Sabha Elections, is concluding today in our nation, the Mother of Democracy. After a three-day spiritual journey in Kanniyakumari, I have just boarded the plane for Delhi. Through the day, Kashi and numerous other seats have been in the midst of voting.

My mind is filled with so many experiences and emotions... I feel a boundless flow of energy within myself. The 2024 Lok Sabha elections are the first in the Amrit Kaal. I began my campaign a few months ago from Meerut, the land of the First War of Independence of 1857. Since then, I have traversed across the length and breadth of our great nation. The final rally of these elections took me to Hoshiarpur in Punjab, the land of the great Gurus and a land associated with Sant Ravidas Ji. After that, I came to Kanniyakumari, at the feet of Maa Bharti.

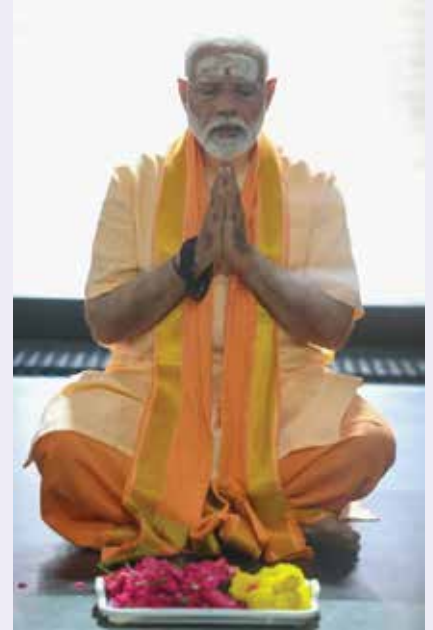

It is natural that the fervour of the elections was echoing in my

heart and mind. The multitude of faces seen in rallies and road shows came in front of my eyes. The blessings from our Nari Shakti... the trust, the affection, all of this was a very humbling experience. My eyes were getting moist... I entered into a 'sadhana' (meditative state). And then, the heated political debates, the attacks and counter-attacks, the voices and words of accusations which are so characteristic of an election... they all vanished into a void. A sense of detachment came to grow within me... my mind became completely detached from the external world.

Meditation becomes challenging amidst such huge responsibilities, but the land of Kanniyakumari and the inspiration of Swami Vivekananda made it effortless. As a candidate myself, I left my campaign in the hands of my beloved people of Kashi and came here.

I am also grateful to God for instilling in me these values from birth, which I have cherished and tried to live upto. I was also thinking about what Swami Vivekananda must have experienced during his meditation at this very place in Kanniyakumari! A part of my meditation was spent in a similar stream of thoughts.

Amidst this detachment,

amidst the peace and silence, my mind was constantly thinking about the bright future of Bharat, the goals of Bharat. The rising sun at Kanniyakumari gave new heights to my thoughts, the vastness of the ocean expanded my ideas, and the expanse of the horizon continuously made me realise the unity, the Oneness, embedded in the depths of the universe. It seemed as if the observations and experiences undertaken in the lap of the Himalayas decades ago were being revived.

Friends,

Kanniyakumari has always

been very close to my heart. The Vivekananda Rock Memorial in Kanniyakumari was built under the leadership of Shri Eknath Ranade ji. I had the opportunity to travel extensively with Eknath ji. During the construction of this memorial, I had the opportunity to spend some time in Kanniyakumari as well.

From Kashmir to Kanniyakumari... this is a common identity that is deeply ingrained in the heart of every citizen of the country. This is the 'Shakti Peeth' (seat of Shakti) where Maa Shakti incarnated as Kanya Kumari. At this southern tip, Maa Shakti performed penance and waited for Bhagwan Shiva, who was residing in the Himalayas at the northernmost parts of Bharat.

Kanniyakumari is the land of confluences. The sacred rivers of our country flow into different seas, and here, those very seas converge. And here, we witness another great confluence - the

ideological confluence of Bharat! Here, we find the Vivekananda Rock Memorial, a grand statue of Saint Thiruvalluvar, Gandhi Mandapam, and Kamarajar Mani Mandapam. These streams of thought from these stalwarts converge here to form a confluence of national thought. This gives rise to great inspirations for nation-building. This land of Kanniyakumari gives an indelible message of unity, especially to any person who doubts Bharat's nationhood and the sense of unity.

The grand statue of Saint Thiruvalluvar in Kanniyakumari seems to be looking at the expanse of Maa Bharti from the sea. His work Thirukkural is one of the crown jewels of the beautiful Tamil language. It covers every aspect of life, inspiring us to give our best for ourselves and for the nation. It was my great fortune to pay my respects to such a great figure.

Friends,

Swami Vivekananda once said, "Every nation has a message to deliver, a mission to fulfil, a destiny to reach."

For thousands of years, Bharat has been moving forward with this sense of meaningful purpose. Bharat has been a cradle of ideas for thousands of years. We have never considered what we have acquired as our personal wealth or measured it purely by economic or material parameters. Therefore, 'Idam-na-mama' (this is not mine) has become an inherent and natural part of the character of Bharat.

Bharat's welfare benefits our

planet's journey to progress as well. Take the freedom movement as an example. Bharat gained independence on Aug 15, 1947. At that time, many countries around the world were under colonial rule. Bharat's independence journey inspired and empowered many of those countries to achieve their own freedom. That same spirit was seen decades later when the world came face to face with the once in a century Covid-19 pandemic. When concerns were raised about the poor and developing countries, Bharat's successful efforts provided courage and assistance to many nations.

Today, Bharat's governance model has become an example for many countries around the world. Empowering 25 crore people to rise above poverty in just 10 years is unprecedented. Innovative practices such as Pro-People Good Governance, aspirational districts, and aspirational blocks are being discussed globally today. Our efforts, from empowering the poor to last-mile delivery, have inspired the world by prioritising individuals standing at the last rung of society. Bharat's Digital India campaign is now an example for the entire world, showing how we can use technology to empower the poor, bring transparency, and ensure their rights. Inexpensive data in Bharat is becoming a means of social equality by ensuring the reach of information and services to the poor. The whole world is witnessing and studying the democratisation of technology, and major global institutions are

advising many countries to adopt elements from our model.

Today, Bharat's progress and rise are not just a significant opportunity for Bharat alone, but also a historic opportunity for all our partner countries around the world. Since the success of the G20, the world has been increasingly envisioning a bigger role for Bharat. Today, Bharat is being acknowledged as a strong and important voice of the Global South. The African Union has become a part of the G20 group at the initiative of Bharat. This is going to be a crucial turning point for the future of African countries.

Friends,

The development trajectory of Bharat fills us with pride and glory, but at the same time, it also reminds the 140 crore citizens of their responsibilities. Now, without wasting a single moment, we must step forward towards greater duties and larger goals. We need to dream new dreams, convert them into reality and begin living those dreams.

We must see Bharat's development in a global context, and for this, it is essential that we understand Bharat's internal capabilities. We must acknowledge Bharat's strengths, nurture them, and utilise them for the benefit of the world. In today's global scenario, Bharat's strength as a youthful nation is an opportunity from which we must not look back.

The world of the 21st century is looking towards Bharat with many hopes. And we will need to make several changes to move forward in the global scenario. We also

need to change our traditional thinking regarding reform. Bharat cannot limit reform to just economic reforms. We must move forward in every aspect of life towards the direction of reform. Our reforms should also align with the aspirations of a 'Viksit Bharat' (developed India) by 2047.

We must also understand that reform can never be a unidimensional process for any country. Therefore, I have laid out the vision of reform, perform, and transform for the country. The responsibility of reform lies with leadership. Based on that, our bureaucracy performs, and when the people join in with the spirit of Jan Bhagidari, we witness a transformation taking place.

We must make excellence the fundamental principle to make our country a 'Viksit Bharat'. We need to work quickly in all four directions: Speed, Scale, Scope, and Standards. Alongside manufacturing, we must also focus on quality and adhere to the mantra of 'zero defect-zero effect'.

Friends,

We should take pride in every moment that God has blessed us with birth in the land of Bharat. God has chosen us to serve Bharat and fulfil our role in our country's journey towards excellence.

We must redefine our heritage in a modern way while embracing ancient values in a modern context.

As a nation, we also need to reassess outdated thinking and beliefs. We need to free

our society from the pressure of professional pessimists. We must remember that freedom from negativity is the first step towards achieving success. Success blossoms in the lap of positivity.

My faith, devotion, and belief in the infinite and eternal power of Bharat are growing day by day. Over the past 10 years, I have seen this capability of Bharat grow even more and have experienced it firsthand.

Just as we utilised the fourth and fifth decades of the 20th century to impart a new momentum to the freedom movement, we must lay the foundation for a 'Viksit Bharat' in these 25 years of the 21st century. The freedom struggle was a time that called for great sacrifices. The present times call for great and sustained contributions from everyone.

Swami Vivekananda had said in 1897 that we must dedicate the next 50 years solely for the nation. Exactly 50 years after this call, Bharat gained independence in 1947.

Today, we have the same golden opportunity. Let's dedicate the next 25 years solely for the nation. Our efforts will create a strong foundation for the coming generations and the coming centuries, taking Bharat to new heights. Looking at the energy and enthusiasm of the country, I can say that the goal is not far away now. Let us take swift steps... let us come together and create a Viksit Bharat. ■
