### @Narendramodi

In the last 11 years, the focus of every scheme of our government has been to ensure the welfare of the poor brothers and sisters as well as the common man. Be it Ujjwala or PM Awas, Ayushman Bharat or Bhartiya Janaushadhi or PM Kisan Samman Nidhi, all these schemes have given new wings to the hopes of the countrymen. During this time, we have made every possible effort to make the lives of the people easier with full devotion and spirit of service. (11 June, 2025)

### @JPNadda

In the last decade, our government has taken care of all sections of the society. We have promoted women-led development. From making women pilots to giving them commission in the army, from admission in Sainik schools to recruitment in NDA, from Lakhpati Didi to promoting SHGs... in the Modi government, women and SC-ST-OBC have all been connected to the mainstream. (9 June, 2025)

### @AmitShah

The historic 11 years of the Modi Government have been a golden period of resolve, endeavour and dedication towards public service. In the #11YearsOfSeva the country has seen a new era of economic revival, social justice, cultural pride and national security. The Modi government has proved that when the leadership is clear, the resolve is firm and the intention is of public service, then new records of service, security and good governance are created. (9 June, 2025)

### @Rajnathsingh

Inspired by PM Shri @narendramodi's vision of #AtmanirbharBharat the defence sector has moved firmly towards Aatmanirbharta (self-reliance), and India now stands proudly among the top five economies of the world. India today stands well-equipped, confident, and unwavering in its resolve to safeguard its sovereignty and territorial integrity at all costs. (9 June, 2025)

### @B.L Santhosh

Country back on track  
Generation full of Confidence  
Civilisation on path of rejuvenation  
Youth Power unleashed  
Women Empowerment at it's peak  
Economy in Greens  
Nation & it's people feel more secure  
Thank You Sri @narendramodi ji (9 June, 2025)

### @Nirmala Sitharaman

In the last 11 years, India has seen a remarkable journey under the leadership of Hon'ble Prime Minister Shri @narendramodi. From making life easier for the common citizen to boosting business confidence, it's been a decade of real and visible change. #11YearsOfSeva (9 June, 2025)

# ELEVEN YEARS OF AMAZING TRANSFORMATION

As India marches ahead realising the dreams of 'Viksit Bharat', its last eleven years of a transformative journey inspire the entire nation with a newfound confidence and faith in its destiny. The emergence of India under the dynamic and visionary leadership of Prime Minister Shri Narendra Modi is acknowledged across the world as an amazing phenomenon. A nation powered with strong leadership which is decisive and determined meets every challenge with ease and confidence. Whether it was the terror attack or military threat from across the border, the Covid-19 pandemic or war against poverty, the nation has converted every challenge into opportunity. The journey from 'fragile five' to 'top five' economy with the fastest rate of growth in the world is an achievement which makes every Indian proud. The last eleven years have been the years of service to the people, good governance and dedication to the welfare of the poor. The result can be seen in the emergence of an India which can dream boldly, lead with vision and realise its goals with acumen and determination.

If the achievements of the last eleven years are seen in the context of the pre-2014 situation, they appear incredibly remarkable. The one decade of misrule of Congress-led UPA had robbed the nation of its dreams for a vibrant and developed India while tormenting its spirit with unprecedented corruption, open loot of public money and misrule made worse by policy paralysis in governance. The world started believing that India's

story was finished as it slipped into the category of 'fragile five' economies of the world. The weak-kneed policies of the Congress had seen its leadership compromising India's security while giving shameful concessions to terrorists, separatists and their backers. Every attack on India's sovereignty, pride and independence further exposed the pathetically feeble leadership of Congress, which believed in the politics of appeasement and vote banks. If the entire story of the Congress leadership is to be summed up, it may be said that the direction in which the nation was set forth in the post-independence era culminated in a negative and demoralising impact on the nation.

In the last eleven years, India is not only witnessing unprecedented economic developments but also, for the first time, feeling civilisationally liberated, united and confident as a nation. The mantra of 'Sabka Saath,

Sabka Vikas, Sabka Vishwas, Sabka Prayas' is driving the nation towards the goals of 'Ek Bharat, Shreshtha Bharat'. The nation has amassed amazing accomplishments in every sector, making India's growth story an inspiration for other nations. While the economy is progressing at the fastest rate among the major economies, India is seen as the brightest star amid the otherwise gloomy global scenario. The fast pace of development has lifted more than 25 crore people from multidimensional poverty. A large number of innovative schemes are making farmers, labourers, the deprived, the exploited, the poor, SCs, STs, OBCs, women and youth the growth ambassadors of India. A large section of India are increasingly becoming national assets in India's journey towards 'Viksti Bharat'. The sectors like defence, green energy, infrastructure, education and skills which were hitherto neglected have now become the drivers of growth and development. What was deemed weakness earlier has now become strength through the right approach, mindset and unflinching commitment to serve the people.

In the last eleven years, India has risen from its slumber and prepared itself to take its rightful place in the comity of nations. It has excelled in every sector under the charismatic and strong leadership of Prime Minister Shri Narendra Modi, becoming the growth engine of the world. Today, the nation is moving ahead with the vision of 'Viksit Bharat', having the guiding principles of 'Panch Pran' and 'Eleven Resolves' of Amrit Kaal. As the vision of 'Viksit Bharat' is inspired by the notion of the welfare of humanity, India's rise is the guarantee of global peace, brotherhood and stability. ■

**In the last eleven years, India is not only witnessing unprecedented economic developments but also, for the first time, feeling civilisationally liberated, united and confident as a nation**

## COMPLETION OF 11 GLORIOUS YEARS OF THE MODI GOVERNMENT

# PAST 11 YEARS SELF-RELIANT India laid a strong foundation for a India with foresight: JP Nadda

BJP National President and Union Minister Shri Jagat Prakash Nadda addressed a press conference on the completion of 11 years of the Modi Government. On this occasion, Shri Nadda stated that before 2014, the country was governed by a government plagued with corruption, but over the past 11 years, the Modi government has undertaken such works of service, good governance, and welfare for the poor that will be written in golden letters. Prime Minister Shri Narendra Modi started the culture of 'Politics of Performance' and has given an accountable, responsible, transparent and people-led government that works in partnership with its citizens. Along with strengthening the country's security, he also enhanced the country's stature on the global stage

**S**hri Jagat Prakash Nadda said under the leadership of Prime Minister Shri Narendra Modi, we are completing 11 years, the work done over these 11 years—dedicated to a Viksit Bharat, the Amrit Kaal, and focused on service, good governance, and the welfare of the poor under the leadership of Prime Minister Shri Modi—deserves to be written in golden letters. The work that has been done is unimaginable and unparalleled. We must

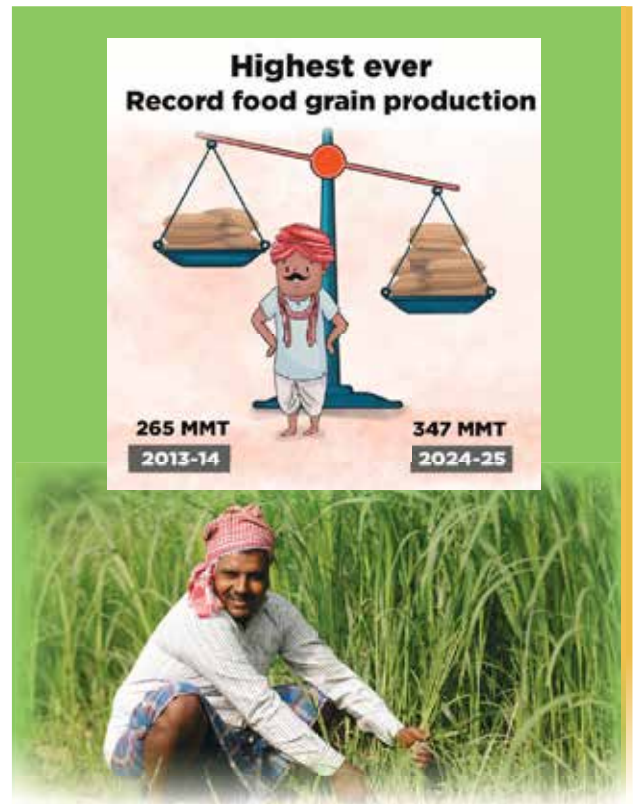

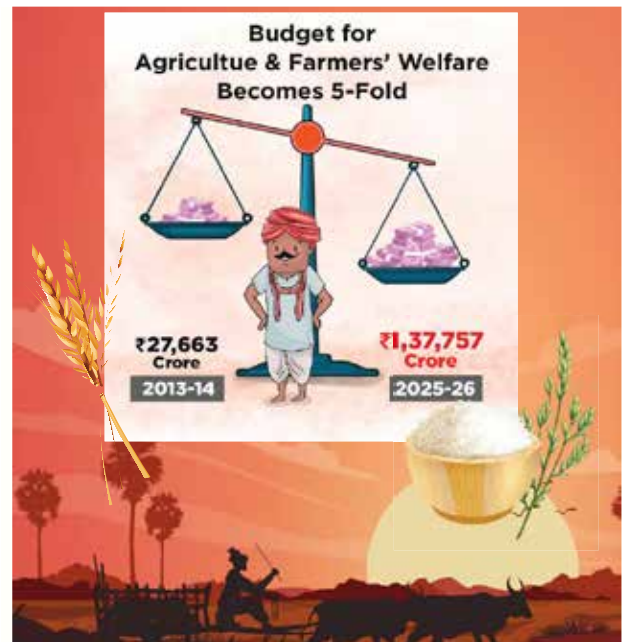

keep in mind how PM Shri Modi has transformed the political culture of the country how he has changed the very fabric and nature of Indian politics. Eleven years ago, the country was driven by appeasement politics, where dividing society to safeguard one's chair had become a norm in the political culture. But after the arrival of Prime Minister Shri Narendra Modi, when I speak of the political culture of the country, it has transformed into the 'politics of performance',

into a 'responsible and accountable government'. Along with this, we now witness the 'politics of report card' — where the government answers to the people through its work and outcomes. The work we are doing is being placed before the people with full accountability — this is the new political culture that has emerged. And that's why I can proudly say that in the last 11 years, under the leadership of Shri Narendra Modi, the government has transformed the very culture of Indian politics and established a 'New normal, a New order'. This is an effective government, a government that delivers results. It is a decisive government that takes bold decisions, and it is a government that has brought fiscal discipline and stability.

### **Bold decisions taken to ensure economic discipline**

Shri Nadda stated that the bold decisions taken over the past 11 years to ensure economic discipline, and the way they were implemented with the support of the people, are aspects we must truly understand and appreciate. As I said, this is a responsible government, a people-led government that works in partnership with its citizens. We have clearly witnessed people's participation in governance during this time. We all know that over the last 11 years, this government has set new benchmarks in transparency. It is a transparent government. It is also a futuristic government, one that works with a clear vision for the future and takes steps with a long-term perspective in mind. That is why we talk about Viksit Bharat. These 10 to 11 years have laid the strong foundation for this vision of Viksit Bharat. All the necessary decisions to build this foundation were taken. The government before 2014 was full of corruption. It was a regime deeply immersed in scams and scandals. There was an atmosphere of negativity and hopelessness, with a belief that nothing would ever change. But after 2014, we witnessed a wave of optimism. When I talk about a change in political culture, I refer to this shift from negativity to positivity. Today, the common citizen of India says, "Modi hai to mumkin hai." There is a strong public perception that Prime Minister Shri Narendra Modi provides solutions to problems and gets things done. This belief has taken root in the minds of the people.

**INTERNATIONAL YEAR OF MILLETS (SHREE ANNA)**

Recognising the importance of coarse grains in providing nutritious food to the people and creating indigenous and global demand, the Government of India, on the initiative of Prime Minister Narendra Modi, played a leading role in declaring **2023 the International Year of Millets** in the **United Nations General Assembly**. India's proposal was supported by 72 countries and in March 2021 itself, the United Nations declared the year 2023 as the International Year of Millets.

## **Viksit Bharat**

Shri Nadda stated that optimism is closely linked with development, innovation, and invention. Today, we are not only driving development but also introducing best practices. Innovation is taking place, and in this way, the work of nation-building has moved forward. To put it in Prime Minister Shri Modi's words — "This decade will prove to be the foundation for the development of the future Viksit Bharat." And it is with this vision that we have moved ahead under his leadership. The policies he has introduced reflect the mantra of 'Perform, Reform, Transform'. We can see this approach embedded in every policy.

## **Fourth-largest economy**

The BJP National President stated that the rail budget was merged with the main budget to adopt a consolidated economic approach. As a result of this economic foresight, India is now among the world's top five economies. According to the latest data from the International Monetary Fund (IMF), India is now on its way to becoming the fourth-largest economy. This is the fourth consecutive year that India has remained the fastest-growing economy. A 67% increase in per capita income, 135% increase in foreign exchange reserves, record export levels reaching 825 billion US dollars, 106% increase in FDI, 127% rise in the number of taxpayers, and 238% growth in direct tax collection all indicate that the government not only made decisions but implemented them on the ground, bringing real transformation. The International Monetary Fund refers to India as a "bright spot," the World Bank calls India the fastest-growing major economy in the world, and the World Economic Forum has even stated that India is set to become the main engine of global economic growth in 2025 and 2026. All of this has been possible despite adverse global conditions. India's economy not only remained stable but also boldly faced every challenge.

## **Successfully conducted world's largest and fastest vaccination drive**

Shri Nadda stated that in India, Prime Minister Shri Narendra Modi fought the battle against COVID-19 together with the people. He decided that the fight must be people-driven, which is why an innovative idea like 'Janata Curfew' emerged. While several

countries witnessed protests against lockdowns and vaccination, India stood out as the only country that successfully conducted the world's largest and fastest vaccination drive by administering 220 crore doses — including double doses — completely free of cost. This is the true hallmark of a responsible and accountable government, and I would especially like to highlight this in the context of COVID-19.

## **Taken care of all sections of society**

He said in the past decade, we have taken care of all sections of society—be it our Scheduled Caste brothers, Other Backward Classes, or our tribal brothers and sisters. Separate policies, distinct programmes, and dedicated scholarships have been launched for each of them. If I begin listing all these schemes, time would fall short, but it is evident that all these initiatives have been dedicated to the SC, ST, and OBC communities. With special focus on women, the spirit of a women-led government has been kept at the centre. Our government has successfully worked to empower women. If we look at the health sector, from conception to childbirth and vaccination thereafter, Government of India schemes have remained active at every stage. Increasing maternity leave from 12 weeks to 26 weeks, that too with full pay, has been a major step forward. Similarly, under the Pradhan Mantri Matru Vandana Yojana, financial assistance has been provided to empower women.

## **Poverty alleviation**

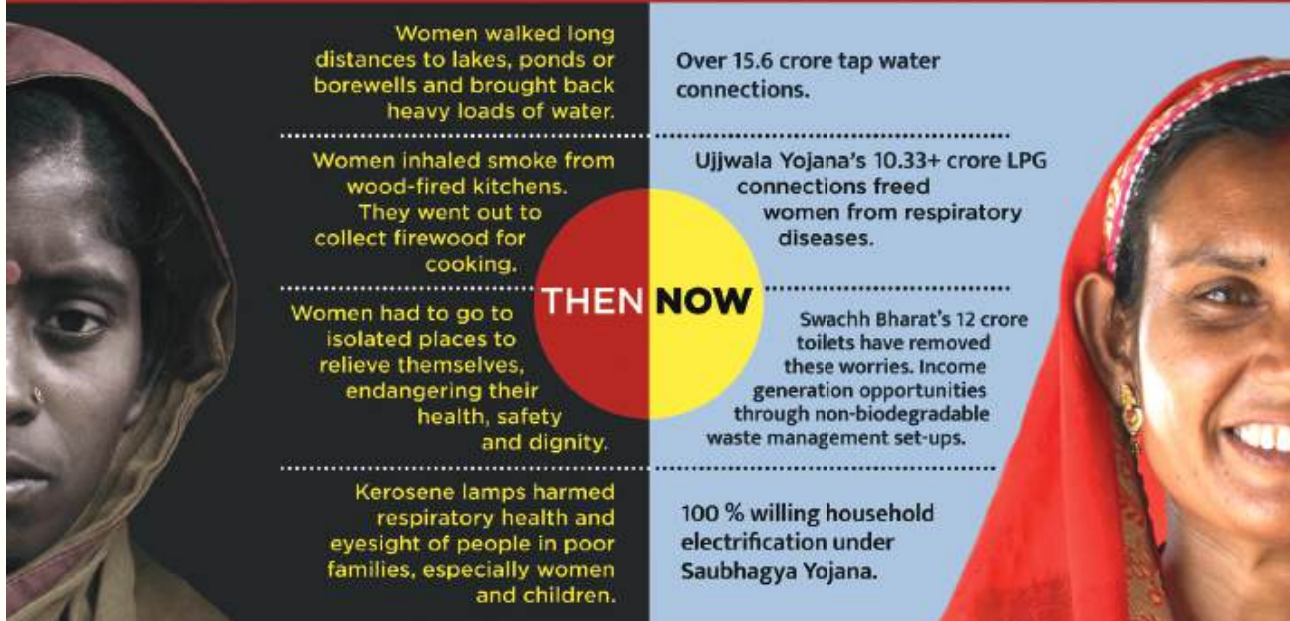

Shri Nadda said Prime Minister Shri Narendra Modi has not treated poverty alleviation as a mere slogan, but as a matter of concrete implementation. Moving beyond slogans like 'Garibi Hatao', the welfare of the poor has been realised in action. The numbers themselves stand as proof—25 crore people have risen above the poverty line. These are not his figures; they are backed by NITI Aayog and international economic forums. Extreme poverty has declined by 80 percent. Under the Pradhan Mantri Garib Kalyan Anna Yojana, 80 crore people were provided 5 kg of wheat or rice per person, free of cost. This is no small feat. Under the Pradhan Mantri Awas Yojana, 4 crore pucca houses have been built. Earlier, when one traveled through villages, one would mostly see

## Removing drudgery from the daily life of women

In rural or semi-urban areas, even getting basic necessities used to be a battle for women. Not anymore.

THEN	NOW
<p>Women walked long distances to lakes, ponds or borewells and brought back heavy loads of water.</p> <p>Women inhaled smoke from wood-fired kitchens. They went out to collect firewood for cooking.</p> <p>Women had to go to isolated places to relieve themselves, endangering their health, safety and dignity.</p> <p>Kerosene lamps harmed respiratory health and eyesight of people in poor families, especially women and children.</p>	<p>Over 15.6 crore tap water connections.</p> <p>Ujjwala Yojana's 10.33+ crore LPG connections freed women from respiratory diseases.</p> <p>Swachh Bharat's 12 crore toilets have removed these worries. Income generation opportunities through non-biodegradable waste management set-ups.</p> <p>100 % willing household electrification under Saubhagya Yojana.</p>

mud and thatched huts. Today, you see permanent houses instead. The roads we once traveled were often incomplete or in poor condition — today, those same roads have been transformed into highways. The speed on these roads is such that one must start paying attention at least two kilometers in advance to take a turn. This is the current state of India's highway infrastructure. The resolution to construct 3 crore houses in the next five years has also been approved. Under the Ujjwala Yojana, 100% electrification, and the Jal Jeevan Mission, tap water connections to households have increased by 364%. Such schemes and their execution clearly demonstrate that this government is accountable, sensitive, and result-oriented.

### Farmers have been brought into the mainstream

Shri Nadda said that through the Pradhan Mantri Kisan Samman Nidhi, farmers have been brought into the mainstream. Under the Pradhan Mantri Fasal Bima Yojana as well, they have been included in the mainstream. As he mentioned earlier, under 100% electrification—be it the Saubhagya Yojana, Ujjwala Yojana, or UJALA Yojana—all these schemes have been effectively implemented. In the area of life

insurance, whether it is accident insurance or term life insurance, nearly 40 crore people have been covered so far. And these are individuals who earlier could not afford such coverage—people from the most marginalised sections of society.

### New Education Policy

Take the New Education Policy as an example—this is the same country where earlier it was difficult to even convene a joint meeting of education ministers on the subject. Today, we have all collectively agreed on the New Education Policy 2020. This was possible because of the extensive consultation involved in framing the policy, which led to its smooth implementation. Regarding the Health Policy of 2017, many may not have even realised that a new policy had come into force, because there was no controversy, no issue raised. This is the result of broad-based consultation and a comprehensive approach. As for the Swachh Bharat Abhiyan, your own data indicates that it is one of the most successful programmes in the country. Its impact is not limited to just toilet construction—it is also clearly reflected in improved health indicators. When we see a decline in many health issues affecting our children, it too is a direct outcome of the Swachh Bharat Mission.

## Direct Benefit Transfer

He said under DBT (Direct Benefit Transfer), the number of transactions has increased 130 times. Through the JAM Trinity (Jan Dhan, Aadhaar, Mobile), leakage of nearly Rs. 3.9 lakh crore has been prevented. A transparent taxation system has been implemented to ensure that every honest taxpayer benefits. Through the 'PRAGATI' platform, monitoring of all schemes and stalled projects has been ensured — even those that were previously neglected have now been brought into public focus and dedicated to the people. Speaking about cooperative federalism, Shri Nadda emphasized that it is not just a slogan, but a lived reality — with GST being its most prominent and bold example. There had been discussions around GST for years, but it was never implemented — until Prime Minister Shri Narendra Modi Ji made it a reality. When GST was introduced, 17 taxes and 13 cesses were unified, and all states came together on one platform. Today, annual tax collection has reached Rs. 20.8 lakh crore. There has been a 283% increase in tax devolution to states. While some people, for political reasons, keep claiming that states are being ignored, the data itself reveals the truth.

## Finance is not the problem

As Health Minister, Shri Nadda shared that whenever someone came with a request, they were told, "Finance is not the problem — implementation is your problem." Shri Narendra Modi has consistently upheld the spirit of inclusive governance in administrative management, ensuring everyone moves forward together. He has often reiterated that if the nation is to progress, the states must progress first. The concept of Aspirational Districts was also introduced by Shri Modi, through which efforts are being made to bring such districts into the mainstream and empower them. Describing the government as futuristic, he cited examples such as the India AI Mission, expansion of schemes, Chandrayaan-3, Aditya L-1, and Gaganyaan missions. All these vividly depict how the country is being viewed with a future-oriented perspective and stand as the greatest example of a futuristic government.

## Committed to realizing the vision of Viksit Bharat

BJP National President said they are committed to realizing the vision of Viksit Bharat and are actively advancing it. Hon'ble PM Shri Narendra Modi Ji has

faced every problem directly without any evasions. When the Uri incident occurred, the Prime Minister said in his speech, "This will be answered." It was the first time in the country's history that a Prime Minister directly signalled the enemy of the nation. Subsequently, the surgical strike was carried out. When the Pulwama incident happened, everyone remembers the words of the Prime Minister who said, "You have made a grave mistake, and you will have to bear the consequences," followed by the Balakot airstrike. In a recent public meeting in Bihar, he directly responded to the terrorists based in Pakistan by saying, "You will be answered beyond your imagination." Their hideouts, the terrorists' bases, and their airbases were all destroyed in a manner completely different from what was expected. This has now become the new normal. Prime Minister has clearly stated that any terrorist incident will be considered an act of war and has also made it clear that the nuclear war threats must be stopped. He has firmly said that no distinction will be made between terrorists and those who provide them shelter. We must understand that whether it is a theft or a terrorist incident, this government has faced every challenge directly over the past 11 years and has given a fitting response.

### **Naxalism affected districts reduced from 126 to just 18**

Shri Nadda said when it comes to Left-Wing Terrorism, Left-Wing Extremism, or Naxalism the number of affected districts has reduced from 126 to just 18. All top Left-Wing Extremist leaders have been eliminated. Violence has declined by 53%, and there has been a 72% reduction in casualties among security forces. There has been a 70% decline in the mortality rate, indicating that we are moving steadily toward eliminating the threat.

Over the past 11 years, development has taken place that no one had even imagined. The country has taken a giant leap towards Viksit Bharat, emphasizing inclusivity of all social groups. While it is not easy to fully explain the significant work, policies, and programs undertaken during the 11-year tenure, it is clear that the visionary leadership of Prime Minister has brought the nation to a new pinnacle.

### **Highlights**

- The Narendra Modi government is a symbol of people-centric and transparent governance, which, over the past 11 years, has laid a strong foundation for a self-reliant India with foresight. This is why we are witnessing the realization of a 'Viksit Bharat' and the 'Amrit Kaal' on the ground
- India has seen unprecedented transformations in poverty alleviation and public welfare over the last 11 years, which deserve to be etched in golden letters.
- The Narendra Modi government is a responsive, responsible, accountable, transparent, and corruption-free government.
- Eleven years ago, the country was mired in politics of appeasement and division, but under PM Modi's leadership, a political culture based on performance, accountability, and report cards has been established, which has now become the new normal and the new order
- Today, the common citizen of India says, "Modi Hai To Mumkin Hai."
- In the interest of the nation, the Modi government has always taken courageous and historic decisions. Examples include the abrogation of Article 370, the abolition of triple talaq, the implementation of the new Waqf law and the Citizenship Amendment Act (CAA), and the 33% reservation for women in legislative bodies
- Decisiveness and action have now become the 'New normal' in India's strategy against terrorism. After the surgical strikes and air strikes, Operation Sindhur has established India's decisive image against terrorism worldwide
- In the past 11 years, the Modi government has prioritized the empowerment of all sections of society, including SCs, STs, and OBCs. Women have been given opportunities in leadership roles across the military, education, employment, and self-employment sectors.
- With the resolve of 'Sabka Saath, Sabka Vikas,' the Modi government achieved the seemingly impossible by abrogating Article 370. Today, democracy is thriving there, and the 63% voter turnout in the assembly elections is the result of the bold decisions taken by the Modi government. ■

# Adding to farmers' income sources

► Promoting income generation through installation of solar panels on barren land.

Record increase of 63.56% in milk production; from 146 million tonnes to 239 million tonnes.

► Separate Department of Fisheries for increased focus; Fish production jumped 88 lakh tonnes, reaching a record 184 lakh tonnes.

Export of honey tripled under Modi government.

► Ethanol procurement up from 38 crore litres in 2013-14 to over 441 crore litres in Ethanol Supply Year (ESY) as on April, 2025.

# SOCIAL SECURITY AND EMPOWERMENT OF WORKERS

## Thinking of platform workers

The growth of new age platforms such as aggregators has meant new kinds of jobs for workers. **India is among the first few countries to think of social security for them.**

Provision has been made for a contribution from aggregators between 1-2% of turnover, up to 5%, for providing benefits to them.

## E-SHRAM FOR EMPOWERMENT

Around **30.82 crore** unorganised workers registered on the portal on self declaration basis

**400** occupations, skill sets, education, income, social category, bank account details, captured

**36** States/UT's onboarded e-Shram for data sharing to facilitate targeted delivery of social welfare schemes to unorganised workers

## PRADHAN MANTRI SHRAM-YOGI MAANDHAN PENSION FOR UNORGANISED SECTOR WORKERS

**51.31 lakh**

unorganised sector workers registered on self declaration basis

**₹ 3,000**

assured Monthly pension they get after the age of 60

# EMPOWERMENT THROUGH ENTREPRENEURSHIP

Loans to **68 lakh** street vendors under PM-SVANidhi scheme.

More than half of **52.5+ crore** MUDRA loans have been given to SC/ ST/OBC entrepreneurs.

**2.74 lakh** loans sanctioned under Standup India benefitting women/SC/ST entrepreneurs

# Recognizing icons of social empowerment

Five prominent  
sites associated  
with  
Dr. B. R. Ambedkar  
redeveloped as the  
'Panchteerth'

Janjatiya Gaurav Divas 2024 commemorated the 150th birth anniversary of Bhagwan Birsa Munda.

Prime Minister Narendra Modi paid tribute to the tribal icon and launched several initiatives aimed at uplifting tribal communities across India.

As of May 2025, the Government of India has sanctioned 11 Tribal Freedom Fighter Museums across 10 states to honor the contributions of tribal leaders in India's freedom struggle.

# Yuva

## Loans for Young Entrepreneurs with PM Mudra Yojana

52.5+ crore MUDRA loans worth over ₹ 33.8 lakh crore sanctioned to give wings to the dreams of young India and create opportunities for self-reliance

## Job Creation Through Startups with Start Up India

India becomes 3rd largest Start-up ecosystem. 1,60,000+ Recognized startups creating 17.6 lakh+ jobs.

## New Avenues in Sports

Best performance of Indian players so far in Tokyo Olympics, Paralympics and Hangzhou Asian Games, fueled by schemes like Khelo India & Target Olympic Podium

# Annadata

## Prosperity for Farmers with PM Kisan Samman Nidhi

Assured income of ₹6,000 to farmers every year; support of ₹3.7 lakh crore delivered to 11+ crore farmers so far, for their financial security

## Access to Immediate Credit with Kisan Credit Cards

₹10 lakh crore have been provided to 7.71 crore farmers with Kisan Credit Cards, enabling easy and affordable access to credit for meeting their short-term working capital needs for agriculture and allied activities.

## Modernised Agri-Infra with Agriculture Infrastructure Fund

₹1 lakh crore investment approved under AIF, a major step towards modernising farming practices and boosting farmer's income.

# Nari Shakti

## Financial Security for Daughters with Sukanya Samriddhi Yojana

Securing every daughter's future through 4.2 crore Sukanya Samriddhi Accounts for girls under 10 years of age, a promise of empowered future

## Access to Clean Water with Jal Jeevan Mission

Over 15.6 crore families get access to clean tap water, nurturing the health and well-being of every woman, every family in rural areas

# INDIA'S SECURITY AND MODI GOVERNMENT

SHIV PRAKASH

The Bharatiya Janata Party (BJP) is conducting the 'Sankalp se Siddhi Abhiyan' to mark the completion of 11 years of Prime Minister Shri Narendra Modi's government. Across the country, press conferences, exhibitions, seminars, public meetings, and village-level Chaupal programmes are being organized to highlight the achievements of the Modi government.

Information about various government schemes is being shared through social media, and a variety of competitions are also being held. Historic accomplishments across multiple sectors—such as poverty alleviation, infrastructure development, national security, economic progress, cultural revival, and India's growing global stature—stand as testimony to the progress made over the past 11 years. Many organizations and eminent personalities from India and around the world have praised these historic accomplishments. Similar landmark achievements have also been recorded in the field of defence.

Chanakya Niti states, "Shastraen Rakshite Rashtra, Shastra Chinta Pravartate"—the contemplation of knowledge (Shastra) is possible only when the nation is secure in all respects. No matter how noble a principle may be, its success ultimately depends on the strength of those who uphold it. This is why

scholars have often emphasized that power is the foundation of peace. India's famous poet, Shri Ramdhari Singh Dinkar, echoed this sentiment in his famous verse: "Kshama shobhati us bhujang ko jiske paas garal ho."

At its 1964 session in Patna, the Bharatiya Jana Sangh passed a resolution urging that India must make every effort to develop an atomic bomb. A document titled "Principles and Policies" also emphasized the need for India to possess nuclear weapons. While presenting the resolution, it was observed that all revered gods and goddesses in Indian tradition are depicted as armed to uphold Dharma. Therefore, it was argued, Maa Bharati too should be equipped with nuclear weapons. In alignment with this vision, the NDA government led by Shri Atal Bihari Vajpayee enhanced India's global stature by conducting the Pokhran nuclear tests in 1998 (note: the correct year is 1998, not 1999). After Prime Minister Shri Narendra Modi assumed office in 2014, the government adopted a decisive, security-first approach to safeguard India's national interests. A key example of this is the government's zero-tolerance policy towards terrorism. In contrast to the previous Congress-led government, which was often criticized for allegedly using respectful terms like "ji" for terrorists and purportedly offering them biryani, the Modi government empowered the armed forces and security agencies with greater operational freedom and provided them with modern equipment to combat terrorism more effectively.

The defence budget of India has seen a significant increase—from Rs. 2.53 lakh crore in 2013–14 to Rs. 6.81 lakh crore for 2025–26, which is more than three times higher. According to the 2015 CAG report, the Indian Army then had ammunition reserves sufficient for only 20 days. Today, the situation has drastically improved. At the individual soldier level, troops are now equipped with indigenously manufactured, high-quality bulletproof jackets, advanced helmets, new battle dress uniforms (NBDU), night vision devices (NVDs), and thermal imagers—enhancing their safety and operational effectiveness. After the formation of Modi government, a historic decision was taken to appoint a Chief of Defence Staff (CDS) to improve tri-service coordination. The importance of this decision was clearly seen during Operation Sindoor, where the three branches of the armed forces operated in seamless coordination. Long-pending decisions related to arms procurement have also been resolved at an accelerated pace. The purchase of Rafale fighter jets from France is a prominent example of this proactive approach. Due to this modernization and strategic clarity, the Indian Army is now counted among the best in the world. Our forces are equipped with advanced systems like the S-400 air defense system, Sukhoi-30 fighter jets, Israeli drones, Hammer missiles, Chinook heavy-lift helicopters, LCH Prachand (Light Combat Helicopter), the fully indigenous Tejas fighter jet, the Pinaka multi-barrel rocket launcher, and Varunastra, an advanced anti-submarine torpedo. During Operation Sindoor, India demonstrated its enhanced capabilities by successfully hitting designated targets and neutralizing enemy drones and missiles—a testament to the growing strength

and preparedness of our armed forces.

Over the course of these highly successful 11 years, India has not only acquired advanced weaponry from foreign nations but has also embraced the mantra of self-reliance (Aatmanirbharta) in defense production. Today, we are manufacturing a wide range of modern and advanced indigenous weapons within the country. Notable achievements include the construction of the indigenous aircraft carrier INS Vikrant, the development of the Akash air defense system, and the production of Rustom UAV drones by DRDO in Lucknow. In a landmark example of international collaboration with domestic capability, India is co-producing the BrahMos supersonic cruise missile in partnership with Russia. Additionally, Tata-Dassault is set to manufacture key components of the Rafale fighter jet in Hyderabad. As a result of these efforts, defense production has increased by an impressive 174% over the past 10 years—from Rs. 46,529 crore in 2014–15 to Rs. 1,27,265 crore in 2023–24. This growth not only strengthens our national security but also positions India as a rising hub for global defense manufacturing.

Defence Minister Shri Rajnath Singh Ji - in his address on 17 November 2021 ("Rashtra Raksha Samarpan Parv", Jhansi) said-"India cannot fulfil its strategic and security needs by depending on other countries... The government is constantly working towards 'Atmanirbhar Bharat'."

Thanks to the policy of self-reliance in the defense sector, India has transformed from being a buyer (importing country) to becoming a seller (exporting country) of defense equipment. Between 2004 and 2014, India exported defense goods worth only Rs. 4,312 crore. However, from 2014 to 2024, this figure has surged to Rs. 88,319 crore. Remarkably, in just one year (2024–25) alone, India has exported defense goods worth Rs. 23,622 crore. By reducing defense imports by 21%, the government has successfully increased defense exports by 34% over the past 11 years. Today, India exports defense products to more than 80 countries around the world. The growing global demand for Indian-made weapons—especially after the successful deployment of indigenous systems during Operation Sindoor—is a strong indicator of the rising confidence in India's defense manufacturing capabilities.

The Modi government's firm resolve to make the country Naxal-free has significantly strengthened public confidence in the administration. The influence of Naxal

violence has sharply declined, and people involved in such activities are now facing their final days. In 2014, a total of 126 districts were affected by Naxal terrorism. As of 2025, that number has been drastically reduced to just 6 districts. Many high-profile and most-wanted Naxal leaders have been neutralized in encounters, delivering a major blow to the movement. With sustained efforts and unwavering political will, the vision of a Naxalism-free India is becoming a reality. If this momentum continues, it is likely that the next generation may only know Naxalism as a thing of the past.

Presenting a powerful example of freedom from colonial and slavery mentality, Prime Minister Shri Narendra Modi on 2nd September 2022, unveiled the new flag of the Indian Navy in Kochi. The redesigned flag replaced the colonial-era St. George's Cross with an octagonal symbol inspired by the royal seal of Chhatrapati Shivaji Maharaj. This new emblem features the Ashoka Pillar, an anchor, and the Navy's motto 'Sham no Varunah'—a symbol of India's rich maritime heritage and national pride.

**The resolve of New India is clear:** We do not merely speak of eliminating terrorism; we act. This has been demonstrated through surgical strikes, air strikes, and most recently, Operation Sindoor. The message is firm—"Blood and water will not flow together." By revoking the Indus Waters Treaty, India has made its zero-tolerance stance on terrorism evident to the global community.

Several initiatives underline this commitment to national security and military pride: Welfare schemes for ex-servicemen, The launch of the Agniveer Yojana, Worship of Rafale jets on Vijayadashami, The Prime Minister's presence among soldiers during Diwali, and Defense Minister Rajnath Singh's visits to forward military posts. Each of these actions reflects our unwavering resolve for a secure and self-reliant India.

Furthermore, the all-party delegation sent after Operation Sindoor stands as a commendable diplomatic effort, showcasing national unity on the global stage. It effectively exposed Pakistan's terrorist agenda and powerfully articulated India's position on terrorism before the international community. These efforts by Prime Minister Shri Narendra Modi to strengthen India's security have successfully instilled a deep sense of confidence among the citizens—that under his leadership, the nation is in safe and capable hands. ■

**{The writer is National Joint General Secretary (Organization), BJP}**

## Mata Ahilyabai is a symbol of invaluable contribution of our women power in nation building: PM

Prime Minister Shri Narendra Modi on 31st May addressed the Mahila Sashaktikaran Mahasammelan in Bhopal, Madhya Pradesh, commemorating the 300th birth anniversary of Lokmata Devi Ahilyabai Holkar. The event not only celebrated the remarkable legacy of Devi Ahilyabai but also emphasized the government's commitment to women-led development across India. He also inaugurated and laid the foundation stone of multiple development projects in Bhopal.

The Prime Minister began by paying homage to Lokmata Devi Ahilyabai Holkar, describing her as a paragon of wisdom, leadership, and devotion. He noted that her governance model, rooted in public welfare, continues to serve as a guiding light. Mata Ahilyabai is a symbol of invaluable contribution of our women power in nation building, he said. He praised her for steering the state of Malwa during challenging times and for her monumental contributions to social reform, economic upliftment, and heritage preservation. Her efforts in temple restoration, especially the Kashi Vishwanath Temple, and promotion of the Maheshwari saree industry were highlighted as symbols of her visionary leadership.

PM Shri Modi reflected on Devi Ahilyabai's progressive stance on issues like widow remarriage, women's property rights, and raising the minimum age of marriage for girls—initiatives considered revolutionary in her era. She also formed women's safety groups and a women's battalion in the Malwa army, reinforcing her role as a pioneer in gender empowerment and security.

Drawing a parallel with contemporary India, Shri Modi asserted that his government has placed women at the center of national development. He pointed out that over four crore homes under government schemes

are registered in women's names, empowering them as homeowners and decision-makers. Infrastructure improvements like household tap water, LPG connections, toilets, and electricity have dramatically improved the quality of life for women, especially in rural areas.

The Prime Minister also spotlighted financial inclusion and entrepreneurship. He mentioned initiatives like Jan Dhan Yojana, where millions of women now hold bank accounts, and Mudra Yojana, with over 75% women beneficiaries. He spoke about the rise of Self-Help Groups (SHGs), noting that over 10 crore women are part of SHGs, and that 1.5 crore women have already become 'Lakhpatis Didis'. The government's support for women as 'Bank Sakhis' and 'Bima Sakhis' was emphasized as part of broader financial empowerment strategies.

Highlighting women's increasing role in defense, the Prime Minister commended the successful participation of women in the armed forces and their presence in forward military positions. He underscored landmark achievements like the inclusion of girls in Sainik Schools, women cadets graduating from the NDA, and female officers commanding fighter jets and naval vessels.

Concluding his address, the PM expressed confidence that the legacy of Lokmata Ahilyabai Holkar, along with the contributions of India's great women leaders, would inspire future generations. He called upon citizens to work towards a "Sashakt Bharat" (Empowered India), where the strength of women continues to shape the destiny of the nation. The event was also attended by the Governor of Madhya Pradesh, Shri Mangubhai Chhaganbhai Patel, and the Chief Minister Shri Mohan Yadav, among other dignitaries. ■

## Ahilyabai, not just a protector of religion, but also a guardian of culture and a pioneer of social reform: JP Nadda

**B**haratiya Janata Party National President and Union Minister Shri Jagat Prakash Nadda addressed the 300th birth anniversary celebration of Lokmata Ahilyabai Holkar in Jaipur, on 31 May 2025. Prior to the event, he also participated in the Tiranga Yatra organized by the state BJP in Jaipur. Praising the multifaceted leadership of Ahilyabai Holkar, Shri Nadda said she made exceptional contributions in the fields of religion, culture, and social reform. He also described Prime Minister Shri Narendra Modi Ji's leadership as a modern embodiment of that legacy, stating that schemes like Ujjwala, Jal Jeevan Mission, Jan Dhan, and Stand Up India have empowered women across the country.

Shri Nadda stated that he was honored to attend the 300th birth anniversary celebration of Punyashlok Ahilyabai Holkar. We often celebrate centuries and remember them, but the true dignity of that remembrance lies in drawing inspiration from their deeds and lives and making an effort to incorporate that into our own lives. Merely discussing them

is not enough. If we learn something from such discussions and apply it to our lives, that would be the true tribute to Mata Ahilyabai Holkar and would give real meaning to this 300th anniversary. We all know that Mata Ahilyabai was not only a protector of religion but also a guardian of culture and a social reformer.

Very few leaders possess all these qualities together. Some may focus solely on religion and overlook social reform, while others may concentrate on culture and miss out on religious duties. But Mata Ahilyabai's personality was a harmonious blend of all these—she was a protector of religion, a guardian of culture, and a reformer of society. She did not belong to the twenty-first century, but to the eighteenth century, a time when the Mughals ruled and the condition of women was extremely pitiable. The emergence of a great personality like Ahilyabai Holkar during such times and her guidance to society is truly inspirational for all of us.

Shri Nadda remarked that while speaking of progressiveness may be a trend today, offering a new vision and dedicating one's life to women's empowerment in the 18th century is a truly powerful source of inspiration. Therefore, Ahilyabai's leadership in the 18th century was not only unique but also had a profound and decisive impact. She was the embodiment of resolve, once she made a decision, fulfilling it became the mission of her life. At the same time, she was full of courage

and completely committed to her ideology. Her life was dedicated to a purpose. Mata

Shri Nadda stated that Ahilyabai Holkar undertook numerous initiatives with a vision for development. However, under the leadership of Prime Minister Narendra Modi, a major campaign for women's empowerment is underway. The Modi government has emphasized not just 'women's development' but 'women-led development,' meaning holistic growth through women. The BJP has promoted campaigns like 'Nari Tu Narayani' and developed a 'life cycle approach' that encompasses policies for women's empowerment from birth to education and achieving self-reliance. However, why did the 'Beti Bachao Beti Padhao' scheme have to wait until 2014 to be launched? Because previous governments were indifferent to it. Under the Sukanya Samridhi Yojana, nearly 4.1 crore accounts have been opened so far. BJP has also played a significant role in the 'Nari

During the event, BJP National Vice President Smt Vasundhara Raje Scindia, BJP National General Secretary & State In-Charge Shri Radha Mohan Das Agarwal, Union Minister Shri Gajendra Singh Shekhawat, Rajasthan Chief Minister Shri Bhajanlal Sharma, BJP State President Shri Madan Rathore, Deputy Chief Ministers Smt Diya Kumari and Shri Premchand Bairwa, among others were present. ■

## **In 2026, Tamil Nadu will uproot the DMK: Amit Shah**

Union Home & Cooperation Minister Shri Amit Shah addressed the meeting of state, district & mandal level office bearers of BJP Tamil Nadu on 08 June 2025. In his address, Shri Shah praised the leadership of Prime Minister Shri Narendra Modi and highlighted the BJP's electoral successes, stating that Tamil Nadu now requires a transparent and nationalist government. He criticized the DMK government for corruption and asserted that Tamil Nadu is undergoing a period of change, with an NDA government expected to be formed in 2026.

### **Work with unwavering determination**

He stated that although he resides in Delhi, his ears are always attuned to the heartbeat of Tamil Nadu. Stalin says Shri Amit Shah cannot defeat the DMK. Chief Minister M.K. Stalin is right, because the power to defeat the DMK lies with the people

of Tamil Nadu. Shri Shah said that he has participated in elections across the country, understands the pulse of the people, and is fully confident that the people of Tamil Nadu will uproot the DMK government this time.

Shri Shah urged BJP karyakartas to work with this unwavering determination. The 2026 Tamil Nadu Assembly elections will be contested together by the Bharatiya Janata Party, AIADMK, and other NDA allies.

### **Highlight**

- The DMK government is a 100% failed government.
- DMK government has crossed all limits of corruption.
- Crime and drug trade are rising in Tamil Nadu, but Chief Minister Stalin remains indifferent.
- The DMK government, steeped in appeasement politics, has insulted Lord Murugan.
- In southern Tamil Nadu, the DMK is promoting caste-based violence for political gains. ■

## **'Era of TMC's appeasement politics is over'**

Union Home & Cooperation Minister Shri Amit Shah addressed the Vijay Sankalp Karyakarta Sammelan in Kolkata, West Bengal on 01 June 2025. Shri Shah strongly criticized the Mamata Banerjee-led TMC government for encouraging infiltration, political violence, and appeasement politics. Shri Shah boosted the morale of BJP karyakartas, urging them to contest the upcoming Assembly elections with full enthusiasm and confidence. He asserted that only a BJP government can restore the state to its former glory as Sonar Bangla and ensure a fear-free West Bengal.

Shri Shah said Bengal was ruled for years by the communists, and after them, CM Mamata Banerji, who came to power with the slogan of 'Ma, Maati, and Manush', turned this great land of Bengal into a hub of infiltration, corruption, atrocities on women, crime, bomb blasts, and atrocities against Hindus.

He stated that Mamata Banerjee has crossed all limits of moral decay in the name of vote bank politics. Just a few days ago, in Pahalgam, Pakistan-backed terrorists killed our innocent citizens and passengers after questioning their religion, right in front of their families. To avenge the horrific killings, PM Shri Narendra Modi launched Operation Sindoor. If Didi had felt this much pain when the people of Bengal were being killed in Pahalgam, it would have been understandable, but she said nothing at that time.

### **Highlights**

- In 2026, West Bengal is set to have a BJP government.
- TMC turned Bengal into a hub of crime, corruption, and violence against women.
- Once the Trinamool government falls, those who murdered BJP workers will be brought to justice.
- To appease her Muslim vote bank, Mamata Banerjee opposed Operation Sindoor.
- Modi Ji granted classical language status to Bengali. ■

**World's tallest railway arch bridge  
Chenab and India's first cable-  
supported rail bridge Anji inaugurated**

# JAMMU AND KASHMIR IS THE CROWN JEWEL OF INDIA: PM

The Prime Minister Shri Narendra Modi laid the foundation stone, inaugurated and dedicated to the nation multiple development projects worth over Rs 46,000 crore at Katra, Jammu & Kashmir on June 6.

"We have always invoked Maa Bharati with deep reverence, saying 'from Kashmir to Kanyakumari,' today, this has become a reality even in our railway network", exclaimed the Prime Minister, emphasising that the Udhampur-Srinagar-Baramulla Rail Line Project is not just a name but a symbol of Jammu and Kashmir's new strength and a testament to India's growing capabilities.

In line with the commitment to boost rail infrastructure and connectivity in the region, he inaugurated the Chenab and Anji rail bridges and flagged off Vande Bharat Trains, enhancing connectivity within Jammu and Kashmir. Additionally, Shri Modi also laid the foundation stone for a new medical college in Jammu, reinforcing the government's commitment to strengthening healthcare facilities in the region, stating that Rs. 46,000 crore worth of projects will accelerate development in Jammu and Kashmir, driving progress and prosperity. The Prime Minister extended his best wishes and congratulated the people on this new era of growth and transformation.

He recalled how generations had yearned for this

moment, highlighting a touching anecdote about Chief Minister Omar Abdullah, who had anticipated this development since his school days. Shri Modi hailed the completion of the ambitious railway project, citing it as a historic moment for the region's development and connectivity.

**"Many people dreamt of this train service. What the British could not do, PM Shri Narendra Modi got it completed, and Kashmir Valley has now been connected with the rest of the country"**

**- OMAR ABDULLAH, J & K Chief Minister**

Despite the formidable challenges of terrain, climate, and engineering obstacles, the Prime Minister lauded the government's determination and India's engineers for delivering marvels such as the Chenab and Anji Bridges. He proudly noted that the Chenab Bridge, now the world's tallest railway arch bridge, and the Anji Bridge, India's first cable-supported rail bridge, are not

just infrastructure projects but symbols of India's ambition and resilience.

Shri Modi emphasized how these developments will boost tourism and local industries by enabling efficient transportation of Kashmiri goods like apples, dry fruits, and Pashmina shawls. Improved connectivity, he said, would ease lives, open economic avenues, and make the region more accessible.

He called on Jammu & Kashmir's youth to join India's manufacturing revolution and contribute to defense exports, underlining the importance of 'Make in India'. Condemning Pakistan's attempts to derail peace, Modi asserted that terrorism would not hinder Jammu & Kashmir's progress. ■

## 'Ekatma Manav Darshan is not just a 'model' but a living vision'

To mark the 60th anniversary of Pandit Deendayal Upadhyaya's seminal lecture series on Integral Humanism, Two-day (31st May and 1st June) National Commemorative Seminar was organized at the NDMC Convention Centre in New Delhi. Hosted under the aegis of Dr. Shyama Prasad Mookerjee Research Foundation, in collaboration with Public Policy Research Centre, Ekatm Manavadarshan Anusandhan Evam Vikas Pratishthan and other institutions, the seminar brought together eminent scholars, policymakers, and ideologues to reflect on the enduring relevance of Deendayalji's philosophy. The valedictory address delivered by the BJP National President Shri Jagat Prakash Nadda. Shri Nadda illustrated how Integral Humanism has moved from ideology to governance, citing welfare and economic reforms as expressions of Deendayal Upadhyaya's vision.

The inaugural address delivered by Shri Arun Kumar, Sah Sarkaryawah of the RSS, emphasizing the foundational ethos of Integral Humanism, which he described as a worldview emerging from the civilizational consciousness of Bharat.

Shri Shivprakash, National Joint Secretary (Organisation) of the BJP, traced the growth of the Bharatiya Jana Sangh under Deendayalji's leadership. He painted a vivid portrait of a man who, despite personal loss and hardship, remained deeply committed to nation-building.

Through anecdotes, he highlighted Deendayalji's humility, intellect, and organizational genius. Integral to his life was a consistent unity of thought, word, and action—a reflection of his deeper spiritual discipline and nationalist conviction.

Dr. Mahesh Chandra Sharma delivered a scholarly exposition of Integral Humanism, noting its emphasis on the fourfold structure of the human being—body, mind, intellect, and soul. He underlined that the doctrine does

not seek uniformity but unity and balance. Deendayalji's vision, he noted, encourages decentralized governance, self-reliant villages, and economic ethics, offering a distinctly Bharatiya model of development grounded in dharma.

In a session on economy and well-being, Shri Shankarananda from Bharatiya Shikshan Mandal linked Integral Humanism to the idea of a decentralized, self-reliant economy.

In session second of first day of the seminar Union Finance Minister Smt. Nirmala Sitharaman reaffirmed the contemporary relevance of

Integral Humanism. She linked its core principles to current policy initiatives like PM Mudra Yojana and Start-Up India. Drawing on Panditji's idea of Antyodaya—uplifting the last person—she stressed that modern development must be guided by ethics, spiritual consciousness, and decentralized enterprise. She highlighted that wealth creation must be aligned with dharma and environmental sustainability, not material excess.

In the third session of the day, Dr. M. S. Chaitra and Union Minister of State for Education Dr. Sukanta Majumdar emphasized the role of education and culture in national rejuvenation. In a parallel session in the first day of the seminar, Union Minister of Environment, Forest and Climate Change Shri Bhupender Yadav and editor of a Weekly magazine Organiser Shri Prafulla Ketkar explored the environmental

dimension of Integral Humanism in the seminar. Second day of the Programme in the first session National security experts like Shri Nitin Gokhale and former IPS and BJP leader Shri K. Annamalai redefined India's security paradigm through the lens of cultural unity and civilizational clarity.

Union Minister Shri Shivraj Singh Chouhan and Dr. Gajanan Dange addressed second session of the second day, Dr Dange a leading expert in rural development, delivered a powerful keynote on "From Soil to Soul"—Ekatm Dharshan advocated a

revival of civilizational values through principles like Swavalamban (self-reliance) and Parasparavalamban (mutual support).

Shri Shivraj Singh Chouhan, Union Minister of Agriculture and Rural Development, echoed this ethos in his address on sustainable development for Aatmanirbhar Bharat.

In a parallel session of the second day of seminar, Smt. Mamata Yadav along with BJYM National Vice President Shri Abhinav Prakash highlighted the transformative potential of women and youth through inner discipline, civilizational rootedness, and character building.

Other eminent speakers including Shri J. Nandakumar, Shri S. Gurumurthy, and Dr. Guru Prakash Paswan presented a civilizational vision of India rooted in dharma, spiritual unity, and cultural memory.

A session on 'Legacy of leadership: Nationalism and Social Justice' was addressed by Shri J. Nandakumar and Guru Prakash Paswan. Shri S. Gurumurthy in his

address elaborated on Integral Humanism as a lived civilizational ethic rather than a political theory.

In his valedictory address, BJP National president Shri J.P. Nadda illustrated how Integral Humanism has moved from ideology to governance, citing welfare and economic reforms as expressions of Deendayal Upadhyaya's vision. He urged institutionalizing Integral Humanism as a guiding framework for national policy. Shri Nadda reminded the audience that Indian thought is not something stagnant or abstract. It is dynamic. It evolves with time while remaining rooted in eternal principles.

This is why the Ekatma Manav Darshan is not just a 'model' but a living vision—a sapling planted by Deendayal ji that must now grow into a banyan tree, offering shelter and direction not just to India, but to the world. He emphasized on a permanent mechanism must emerge that continues to reflect, refine, and propagate Integral Humanism in response to contemporary challenges. ■

## 'Dr Syama Prasad Mookerjee: Ek Shikshavid Ki Rajnitik Yatra' released

A book chronicling the life and legacy of Dr. Syama Prasad Mookerjee, titled 'Dr Syama Prasad Mookerjee: Ek Shikshavid Ki Rajnitik Yatra', was officially released on June 1 at the NDMC Convention Center in the national capital in a conference organized by the Syama Prasad Mookerjee Research Foundation (SPMRF) and saw the presence of prominent political and academic personalities.

Union Minister for Agriculture and Farmers' Welfare Shri Shivraj Singh Chouhan, along with Tamil Nadu BJP Vice-President Prof. P. Kanagasabapathi, jointly unveiled the book. The volume is authored by Shri Vikash Anand, Associate Editor of Kamal Sandesh, and has been published by the reputed publishing house Vani Prakashan.

The book explores the remarkable life of Dr. Mookerjee, an eminent educationist and political leader, who played a significant role in shaping India's nationalist discourse. Through well-researched narratives and detailed analysis, the book presents Dr. Mookerjee's contributions to the country's political evolution, beginning with his early academic achievements to his eventual establishment of the Bharatiya Jana Sangh, which laid the ideological

foundation for today's Bharatiya Janata Party (BJP).

The book not only highlights Dr. Mookerjee's academic brilliance and his tenure as the youngest Vice-Chancellor of the University of Calcutta but also delves into his firm opposition to the appeasement politics of his time, his principled resignation from Nehru's cabinet over the Nehru-Liaquat Pact, and his historic role in demanding full integration of Jammu and Kashmir into the Indian Union.

Dr. Mookerjee's mysterious death in 1953 while in custody in Kashmir remains one of the most debated political episodes in India's history. The book addresses these events with academic rigor and presents various perspectives to enrich public understanding. ■

# Coverage of Ayushman Bharat scheme was very impressive: Winston Peters

As part of the KNOW BJP initiative, Bharatiya Janata Party National President and Union Minister Shri JP Nadda, met with the Deputy Prime Minister of New Zealand, Rt. Hon. Winston Peters, in New Delhi on 30 May 2025.

During the interaction, Shri Nadda shared key aspects of the BJP's organizational structure and its broad-based outreach efforts across diverse communities. He proposed the establishment of a delegation exchange between the Bharatiya Janata Party and the New Zealand First party to foster closer inter-party relations.

The discussion also covered flagship health initiatives undertaken by the Modi government, with

particular emphasis on programs benefiting women, children, the elderly, and other vulnerable sections of society. Mr Winston Peters was very impressed with the extent of the coverage of the Ayushman Bharat scheme.

Both leaders acknowledged the progressive growth of India-New Zealand bilateral relations over the past decade and explored avenues for deeper cooperation, especially in the field of healthcare.

He found the Indian electoral system elaborate & impressive. Rt. Hon. Winston Peters also serves as New Zealand's Minister of Foreign Affairs, and holds additional responsibilities as the Minister for Railways and Minister for Racing. ■
